Transcend Polarization

Greetings. I am Juliano. We are the Arcturians.

I know that all of you are aware of the strong polarizations that are occurring throughout this planet. It seems that the energies that are coming to the earth are accelerating the strong polarizations. I'd like to remind everybody that our work and our method is to transcend polarizations. In fact, the work of the Planetary Cities of Light and the Planetary Ocean Reserves of Light focus on a *unity*, but the unity is only possible when you transcend or rise above the polarizations.

This is a complex subject because as you *transcend* the polarizations, you still *recognize* and still *accept* the individual differences. This is where it becomes very difficult because the people on one side do not want to accept the differences on the other side. It would be natural for you as a planetary light-worker, it would be natural for you as a planetary healer, to think that one side might be correct, to think that you would like to identify with that side. This occurs throughout the planet. That is, one side may appear right and the other side may appear wrong.

What a challenge, what a conflict. How difficult it is for you as planetary light workers to understand and to try to find harmony and balance especially at this time when those involved in the polarizations are not interested in harmony and balance. They're not interested in coming to a unity. Rather, they are interested, often, in strengthening their polarized position.

Yes. This is an old conflict that has been on the planet Earth for many times. And it is an old conflict that even comes from the galaxy, and from other cities, other planets. Planets of higher dimensions, such as Alano, are *models* of harmony and balance. But, *they too*, at one point struggled. They too at one point struggled and this struggle of polarizations that lead to conflicts, that lead to unrest, are very uncomfortable and are very disturbing. However, as a planetary healer, as a Planetary City of Light founder, do not identify with either side, but rather see and work as you are now to *transcend* the polarizations and to find the unity.

That is one of the main subjects, one of the main strengths of the Planetary Cities of Light because the Planetary Cities of Light are promoting brotherhood and sisterhood, are promoting unity consciousness. You see, the Planetary Cities of Light have *ideals* as thought forms. Part of the Planetary Cities of Light is working in creating a balance of light and of protective light around the city. Part of the roll of the Planetary City of Light is to attract the 5th dimensional energies and also that the Planetary Cities of Light are devoted to the ascension.

So, when I look at the 5th dimensional energy, I find that there are many thought forms, there are many ideals, there are many values, that also come with the 5th dimensional energy. It is not just light energy and protection but it is also higher dimensional *thoughts*, higher dimensional *values*. We must recognize the higher thought forms, we must

recognize the higher values that are to be promoted in the Cities of Light. That is why I have included the concept of the Just Society because the Just Society looks for the highest value, the highest compassion, but also the highest justice. Remember that justice is also a divine trait. Justice can be a higher value that is promoted. Do not think that a Just Society is only about compassion and only about loving kindness because the Just Society also includes Divine justice. Yes. A justice with compassion. Yes. A justice with loving kindness. But also, those who may want to do harm, or those who actually do harm, to the planet, to society, all of these people need to be dealt with, with justice as well. But it is possible to work with divine justice and divine compassion.

Please remember that you as Planetary Cities of Light workers also look for ways of *transcending* polarization, *promoting* unity, promoting understanding and acceptance of individual differences. And yet, even with the individual differences, there can be a coming together a higher brotherhood, a higher sisterhood from *strength*. And this value can be transmitted and manifested on the earth. That was the meaning of the famous statement, "the meek shall inherit the earth," by Sananda-Jesus. He was saying those who are open, who don't want to be part of polarization but they want to be part of the brotherhood and sisterhood. *That* is the new paradigm, but it is a new paradigm with justice and strength. It is a new paradigm of cosmic brotherhood and sisterhood. It is a new paradigm of *transcending* polarizations in a *constructive* way that only brings higher light to the planet.

I am Juliano. Good Day.
