What is Needed to Resolve the Planetary Crisis

Juliano, channeled through David K. Miller

The planet, as you know, economically, socially, politically, environmentally is extremely polarized and in 2019 you saw continued escalation of this polarization. In 2020 there is a continuation of this polarization. The polarization erupted very quickly and already during the first week of 2020, it looked like there was a possibility of World War III. A world war could possibly lead to a cataclysmic event, including a nuclear war.

In January there exists the creation of a window for resolutions of polarizations. Now this is a fantastic window and if you look even at America which is extremely polarized, you would say 'How is it possible that a polarization could be resolved with the extremeness on both sides. It looks like each side is getting more extreme. How is it possible that there could be any resolution?' A conjunction of energies, symbolically represented astrologically, is creating an opportunity for resolution of polarizations. I want to emphasize spiritual clarity is now needed, because the solution to these polarizations is going to come from a spiritual clarification, a spiritual awakening, a spiritual opening. This clarity will come from a fifth dimensional window or opening. I predict a coming together and an acceptance of this global crisis. There are major problems in the biosphere, such as the Australian fires, which is being

Past Channeled Messages From Juliano

**From "Kabbalah and the
Ascension", Chapter 1**
By David K. Miller

"We are talking about the Kabbalah and the particular frequencies of the Hebrew language that are useful in tuning into your soul vibrations. Hebrew is a special galactic language that was brought to Earth many centuries ago. It has certain sounds that resonate with the galactic core and help bring in the Creator energy. This is extremely important. Many of the sounds themselves, even if you do not know what the meanings are, can take you into a higher state of consciousness. When you are in a higher state of consciousness, then you can access your higher self. This is one of the reasons you are incarnating now - so that you can access your higher self and tune into the Creator.

There are three levels of Self. You have the lower self, which some call the animal self. That sounds as if you are equal to the animal, which is in one sense true - you are an animal in your day-to-day functioning and your survival skills are governed by this aspect of yourself. Your lower self has a unique ability, though: it can blend with your middle self. Unless your lower self is able to key into this energy, you cannot go into the middle self.

When you go into the middle level and the higher levels, then you begin to access the highest energy fields and can bring in the soul energy, which will help you learn more about yourself. You will be able to access energy that will expand your Light Body.

The Light Body is that part of your higher self that will come down and merge with your lower self. In effect, this is the message of Kabbalah: you can receive yourself. You have a higher Light Body that is able to coordinate and merge with your lower self on

caused by climate change. Acceptance of this global crisis by those in powers of authority, could have a tremendous effect towards making healing changes for the planet.

Remember, what we need is resolution of polarizations. The most healing thing that could happen to the planet in terms of counteracting the sixth mass extinction and counteracting the global changes in climate is a universal acceptance that Earth is in a crisis.

Here are three things that are needed to start this change:

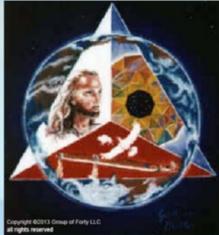

- 1) People must accept that there is a global crisis
- 2) Acceptance that this crisis is created by man; and
- 3) Man needs to make some dramatic and painful changes.

Major Global interventions now can still have a dramatic and healing effect on stopping the degradation of the biosphere and help to return Earth to a healthier and better balance.

Starseeds Counseling

I am **Gudrun Miller**
and I have been a
professional counselor
for over 30 years.

Dear Gudrun,
The reality of the 6th mass extinction is hitting me hard! I think there is nothing I can do now to change that or to help. I am losing my vitality to enjoy life and I just want to withdraw from the world and hide! Please help. I don't want to give up being a planetary healer. Thanks.

Dear Planetary Healer,
You are a very advanced Starseed and you are here to be a planetary healer as well as to complete your personal healing. Maybe you have reached this impasse before and now you have a choice to persevere. Remember that the light outweighs the dark and that the good thoughts are more powerful than the negative thoughts.

Juliano reminded us at a Council of Elder's meeting that we chose to come here at this time knowing what we would be dealing with. I sometimes picture myself in the Starship Athena looking down at the evolving Earth with detached compassion. This helps me to not identify with the dramas unfolding on the Earth right now.

An email announcement will be sent out one week prior with the freeconferencecall phone number and access code.

Contact David Miller at davidmiller@groupofforty.com for more information.

The re-transmission of the lecture for Europe will be on **Sunday, February 2, 2020 at 10:00 a.m.** Phoenix, Arizona time.

Planetary Healing Biorelativity Earth Balance Teams

These wonderful groups are meeting weekly to present meditations on the various meridians of Earth. What is happening is that we are letting Earth know we are here and we are supporting her and she will respond more favourable

You know how they thank veterans for their service. I thank you for your service to the Earth!

REMEMBER.....A planet cannot ascend by herself. A planet must have higher thought forms, higher beings, on it.

Biorelativity is the ability to interact with the Spirit of the Earth with higher consciousness. On one level, Biorelativity can create unity consciousness and a unified energy field.

Noorelativity is the ability to send thoughts and energy into the Noosphere for the purposes of manifesting a higher healing light throughout that planet.

Energies of 2020

As we step fully into the new year, let's set the intention: "With a clear mind and open heart, I move forward boldly and with zeal into this new beginning in my personal power."

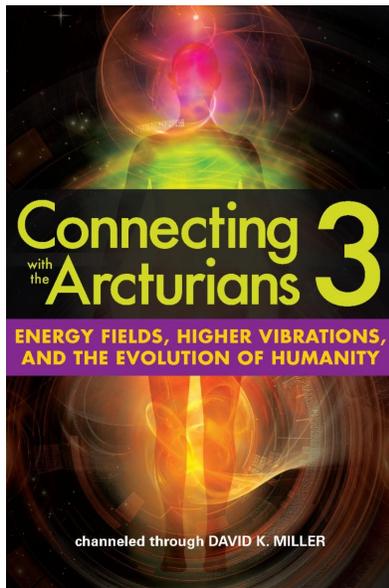

Juliano says of 2020: *"This is a year of realignment and rebalance. It is important for all spiritual workers to hold on to their power, and to develop individually during this time of planetary realignment and rebalancing. All those who hold power will be given a seat at the table which means that you, as spiritual Lightworkers and Planetary Healers, are going to have greater influence in 2020."*

How do we stand in our own power and fulfill our role as Lightworkers and Planetary Healers?

Personal power is not an attempt to maneuver or control others but instead it is a natural, healthy striving for love, satisfaction and meaning in one's interpersonal world. This power represents movement toward self-realization and transcendent goals in life; its primary aim is mastery of self, not others. It is based on competence, vision, positive personal qualities and service, when externalized, it is more generous, creative and humane than other forms of power.

Here are some steps/reminders to being in your personal power:

1. **Take personal responsibility** for your own awareness, behavior, and everything that you experience without judgment and, collectively for the society you live in.

[This Book](#) is available as an e-book and a hard copy book through Light Technology Publishing.

You can also find it on Amazon at [this link](#).

This third book contains the most up-to-date information on ascension that is available, including new spiritual techniques to aid the process.

David's earlier books:
"Connecting With the Arcturians" and *"Connecting with the Arcturians 2"* by David K. Miller offer a comprehensive presentation on the ideas and views of an extra-dimensional, extra-terrestrial civilization on the Earth situation from the planet Arcturus.

Subjects included in this fascinating presentation are: 1) the Arcturians' view of the ascension or "rapture;" 2) what is the Fifth Dimension and how we, as the human race, are evolving toward the higher dimension; 3) the impending Earth peril and dangers to the Earth biospheres; 4) Jesus' (or Sananda's) role in the ascension and why he has a new

Taking responsibility is taking power and acknowledging that life does not happen to you; you see what is happening for you. We choose our experiences. As you do this you raise your consciousness affecting the morphogenic field of those around you, your city of light and humanity.

2. **Take care of you, first.** This is especially important in 2020 and a major paradigm shift because part of our conditioning is to take care of others first. Taking care of yourself first comes from a position of strength and clarity whereupon assistance to others flows from your love. Love your neighbor as thy self. The highest level of consciousness corresponds to owning our power - and not giving it away in exchange for anything, to have to reclaim it later.
3. **Make an effort to apply the personal tools** that the Arcturians have given us to balance our four energy bodies, keep ourselves healthy, energetic, and in permanent connection with our multidimensional self and with our beloved masters and guides. These tools help us better deal with personal and planetary crises. Their use depends on us.
4. **Allow yourself to express your power.** Being powerful is safe knowing that you are expressing your power with love. The author Marianne Williamson says: "Our deepest fear is not that we are inadequate. Our deepest fear is that we are powerful beyond measure. It is our light, not our darkness that most frightens us. We ask ourselves, 'Who am I to be brilliant, gorgeous, talented, fabulous?' Actually, who are you not to be? You are a child of God. You playing small does not serve the world. There is nothing enlightened about shrinking so that other people won't feel insecure around you. We are all meant to shine, as children do. We were born to make manifest the glory of God that is within us. It's not just in some of us; it's in everyone. And as we let our own light shine, we unconsciously give other people permission to do the same. As we are liberated from our own fear, our presence automatically liberates others."
5. **See the bigger vision of yourself in your power.** Helioah had this to say: "You must begin to see yourselves as 'bodies of energy' that are receiving what you need in order to heal and to grow. And when you are growing and healing, there is often pain and discomfort. Remember that YOU are the ones who must be taking care of yourselves... so that you may do the important work you have come to the Earth to accomplish. We are speaking about 'your work' ~ your choice to 'Spread the LIGHT! to Spread the LOVE!' and the other high frequency energies. All around you so that the remainder of Humanity can then chose to transform themselves from the inside outward, ... just as you have done. You are the Anchors! You are the very ones

name in the higher realms; 5) The Arcturian Stargate, a soul transfer station referred to in the Edgar Cayce's writings. When we finish the Earth's incarnations, we can travel to the Stargate for our next "soul assignment."

This first book also describes a new concept in spirituality, the Arcturian Sacred Triangle. For the first time, the Arcturians offer a way of uniting Earth's spirituality so that a planetary healing can occur. Readers will learn how ascended Native Americans' mystical Earth spirituality and galactic extra dimensional spirituality can be united to enhance a healing for the entire planet.

The follow-up to this book, "[Connecting with the Arcturians 2](#)", focuses on planetary transformation from a galactic perspective. It covers such topics as embracing galactic spirituality and planetary evolution, the aura enhancing technique known as shimmering and much more. The reader also gains more understanding of the planetary healing technology such as biorelativity and other global healing techniques.

doing the majority of the 'heavy lifting' ~ and if you don't take care of yourselves ... then, who will?"

6. **Practice deep gratitude.** The frequency of deep gratitude is being in the heart allowing you to open to areas you could not imagine and to a place of higher creativity and service.
7. **Finally, keep your spiritual focus** and connect with your brothers and sisters in your cities of light in unity, mutual support and fellowship. Lean on each other and your network for strength and support to lift you up. We rise lifting others!

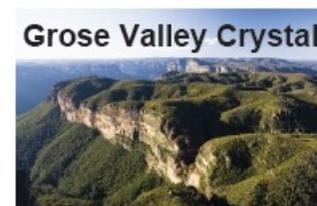

In conclusion, let us embrace the challenges and opportunities of this new year in our personal power attracting and holding the fifth dimensional light for our Planetary City of Light and fulfilling our role as Lightworkers and Planetary Healers.

This year, practice holding this vision of yourself, your Planetary City of Light, and the Earth.

Dear fellow humans,
I have posted this as a comment in relation to the Australian bush fires. Each individual's perspective is true and valid for themselves. This is mine.

I live in Australia and I have purposefully chosen a perspective that suits me as it feels the best. My heart feels so full. I have never experienced so much love and deep compassion and understanding between complete strangers and it has showed me the most beautiful aspects of being human. I feel so honored to be human and to live in this beautiful country. There are unprecedented outpourings of generosity from all around the country and now the world. The hard work and dedication of the firemen and women are astounding. They are mostly volunteers giving up paid work to give help to their fellow countrymen. There are people giving up their own beds to sleep in a tent in their gardens so that the evacuees have a bed to sleep in. People are opening their homes, caravans, land, and lives to complete strangers and welcoming them with open arms and pure love and compassion. How absolutely beautiful.

Henry Brenner - New York

People are giving so much money and items from a place of love with no need for thanks or acknowledgement. People are offering to help rebuild homes with offers of heavy machinery, labor, expertise, and time out of their own lives just because they want to give from the core of who they are. People have driven over 700 kms through the night to cook food and meals for those in need. Hotels are offering free accommodation.

There are people who have set up Facebook groups so that people who have nothing left can pair with people who want to give and help so freely. These group admins are working tirelessly to help thousands and thousands of people expecting nothing in return. People are offering free counseling, hugs, fields for livestock. They are knitting booties for koalas' feet. They are visiting the burnt out areas with food for wild animals - collecting donations of food and water from supermarkets (Rosemary Irvine, Matthew Kastelein thank you).

People are hand-feeding wild animals in their homes. People are offering babysitting and care for the elderly, paying for people's groceries who can't afford it - complete strangers who are made of the same energy as them. I have lost everything familiar to me in the past (not from a fire) and although it was challenging it was exactly what I needed and showed me more of who I am. It is with compassion that I can see those who have lost everything can rebuild and rise like the Phoenix from the ashes.

There is a forest near my home which was burnt out 4 weeks ago and already the regrowth has started. Nature knows exactly what it is doing. It is beginning to bloom like never before just like the amazing humans in this country. My heart is exploding with love just witnessing how big people's hearts are and how much we are capable of. I have never been so proud to be human. *EVER*. The new earth isn't coming - it is here *NOW* and it is so beautiful. This is the world I have always wanted to live in - a world of love.

PCOL/ PORL Report from Australia & New Zealand

Here are the Tree of Light pathways for each PCOL/PORL in Australia and NZ.

Hello all, I'm Henry Brenner.

I was born in Rochester, NY, about 300 miles northwest of New York City. We lived in the southeastern part of this city which was at the time known as the headquarters of Kodak and Xerox. When I was nine, we moved to the suburbs. My parents put great store in reading and education, and in school I showed an early interest in science, mathematics and music. I played the French horn in high school and college bands and orchestras. I attended MIT (Massachusetts Institute of Technology) as an undergraduate, majoring in chemistry. I went on to do Ph.D. work at the University of Chicago and then did three years of post-doctoral work at the University of California at Berkeley. I was lucky enough to get a faculty position at New York University, where I stayed until my retirement in 2012. While on the faculty, I did some research in physical chemistry, dealing generally with the interaction of light and microwave energy with organic molecules. I trained nine Ph.D. students, as well as several

CORNWALL CAPERS **Polbathic PCOL in Cornwall, UK**

Hello Starseeds/Lightworkers

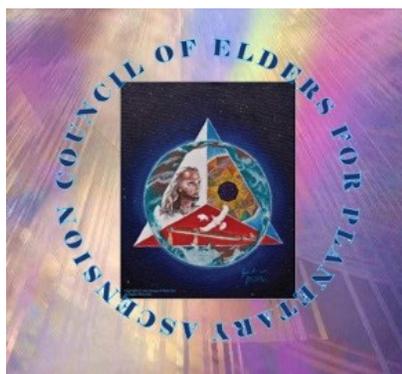

Wishing you a Happy New Year from all in Polbathic Cornwall - although it's been a tough 2019 with crisis points personal, climate or political we now have a new start - another opportunity to bring about (or manifest) Love, Peace, Harmony and Balance with Unity Consciousness for the world.

We can all do our bit - by regularly doing our PCOL/PORL and Bio Relativity meditations and self-healings - regularly setting time aside for practice with commitment, dedication and devotion, with love in our hearts, focus of mind and with the love and support from all our guides including Sananda,

undergraduate research students, but my main focus came to be undergraduate teaching. One of the courses I taught was called "Energy and the Environment", and this sparked my interest in environmental problems such as air and water pollution, ozone depletion, greenhouse gases, climate change and nuclear energy.

I was introduced to the Group of Forty through my wife, Kristine's participation. Based on my training as a physical scientist, I tend to see things from a third dimensional perspective. At the same time, I am well aware that there exist levels of being beyond the perceptive powers of the five senses. And I have also come to recognize the importance of the collective thoughts and meditations of the spiritually enlightened in working to help heal and protect the earth from the many environmental threats that it now faces.

Blessings to all, Henry

From the USA Group Coordinator Wake-up call for our sleeping members! Remember why you signed up to join the Group of Forty?

This is a wake-up call for our sleeping members!

Group of Forty members, the time has come when each and every one of you are needed! Do you listen to the lecture regularly as it is given? Do you participate in the Biorelativity meditations or the PCOL project?

The following paragraph is an excerpt taken from the January 2020 lecture which dealt with the Australian fires and the sixth mass extinction:

"Rest assured that there are interventions for Australia, but they have to be on a global nature, and we are asking that a global meditative intervention be used, because the more we can get people from all over the world to meditate and to work with us, the stronger the input into the noosphere will be. I want to say that there is the possibility of reprogramming the noosphere, too, that is that we can say we do not want the sixth mass extinction, we do not want to see all the forests destroyed, we do not want to see the oceans die, that mankind has the ability to repair the planet. We are working with starseeds to repair this program that I just mentioned can also be downloaded into the noosphere, but it has to be done in a very strong way with the greatest arcan power, and this is why we have continually emphasized for the Group of Forty, sixteen hundred starseeds meditating on the noosphere, meditating on the Biorelativity, and meditating on the planetary changes that need to occur."

~ Juliano, channeled by David K. Miller January 4, 2020.

The Council of Elders are planning more meditations, webinars and channels in the coming weeks. Please take these events as chance to invite your friends and neighbors to see what it is that you do to maintain balance and harmony in your surroundings.

In the past this may have seemed too bold! However, with today's attitude, their hearts may be open to connect with Spiritual Evolution.

Did you know?

Earth is Resilient

Many of the episodes of upheavals have not dramatically occurred yet. The Earth has a little more resiliency. The biosphere has a little more resiliency left. The people who made dire predictions in 2012 based on end-time scenarios did not totally take into account the resiliency of the Earth. The Earth, as a great planet, desires to maintain its biosphere and to maintain its humanity, because humanity is a great gift, and it is a great achievement for a planet. But everything has a limit. There are certain trigger

contain geometric patterns related to deeper energies within Earth. 5D beings work with crop circles to create these energy configurations which are telepathic communications with the spirit of the Earth. They give instructions to Gaia tell her that Earth is in transition and coming into 5D energy.

Crop circles also communicate about the earth feedback loop system. Explain a little about this system and how it can be accessed.

Earth's feedback loop system is set to maintain a certain relationship between the chemistry in the atmosphere and on Earth. If the chemistry on Earth shifts then the atmosphere makes a corresponding adjustment to maintain levels that allow everyone to breath. There needs to be a certain % of oxygen and nitrogen. Earth's FBLS is not understood by scientists. They don't know how to communicate with it because the feedback loop system is a secret code that has a powerful function. The secret code is not easily broken...not easily accessed. If accessed for non- spiritual reasons, there could be chaos and it could be used for military purposes.

What is HAARP and what negative effect does it have on our planet?

Earth's feedback loop system can be a way of controlling weather patterns in certain parts of the world, e.g., volcanic eruptions...earthquakes. This is what HAARP is trying to do crack the codes of the feedback loop system. They are close. They know there is a basic harmonic frequency on Earth. All planets- all stars have a radio frequency vibration. HAARP want to explore whether it is possible to shift Earth's frequency and the results of doing this. Scientists don't understand why a planet vibrates at a certain harmonic frequency.

Briefly, what are Harmonic activations; how do they affect and balance the Earth's feedback loop system?

They are a doorway...they are a time of harmonic energies and communications with Earth. Harmonic energies are opportunities to communicate with Earth's feedback loop system. A time to communicate with the harmonic energies.

points that still exist on this planet that could totally set off catastrophic shifts. These are not pleasant trigger points; they are not points that are easy to find countermeasures.

One of the trigger points right now is the pollution in the ocean and the spilling of oil and other gases into the oceans. The oceans are at a critical balance, and they are in danger of totally collapsing. The life in the oceans could collapse. The oceans now are at a sensitive trigger point.

Another trigger point on this planet is the nuclear radiation and the nuclear power plants. Some of the nuclear reactors have been built around earthquakes faults. So, you may ask this question: How many more nuclear power accidents like Fukushima can this planet absorb? How many more nuclear accidents can the planet filter out? There are other trigger points in certain Earth meridians, where there are blockages of the meridians.

But there are antidotes to counterbalance these trigger points, and one of the main counterbalances is the creation of sacred areas. The Earth really responds to sacred work. This fact has long been known by the Native Americans, the Hopis and many other Native Peoples, such as the Iroquois. They have known for centuries the power of creating sacred areas and how the work of sacred energy counterbalances the trigger points. But because they are so many existing trigger points on the Earth right now, this means that there must be a proportionate major increase in the creation of sacred areas.

So never before has there been such a high necessity for sacred areas.

One of the greatest tasks and the greatest work is to create the awareness of the planet as being sacred. That is why the Ascended Masters and teachers have supported greatly the idea of the Earth being sacred. One of the basic messages of the Arcturians, and one of the basic messages of planetary healing, and one of the basic messages of Biorelativity, is that the Earth is sacred. This is such a simple and beautiful message. There are many trigger points, and there are many possibilities of continued upheaval. But the Earth responds, the Blue Jewel responds, to your sacred work and your work to create sacred spaces. Your eventual work as planetary healers is to teach that the Earth is sacred.
