THOUGHTS FROM JANE

When you are praying or working to find your true place, please remember that the full information may not come in one swoop but more likely in stages. These intermediate steps should be welcomed for what they are – stepping stones to the end result. Whether it is the correct job, or the ideal home, or just perfect personal order in some form, the chances are it will progress step by step. Now, if you are impatient, or don't like these intermediate steps and think 'This is getting better, but still not what I really want', you will hold the final result back. Neither should you accept a small improvement as being all that you can hope to get. The scientific approach is to see the steps AS steps; to bless each step, to give thanks for it and to continue praying or working towards the next step.

If you were in North Sydney or let's say Brooklyn and you wanted to reach South Sydney or Manhattan, you would cross Sydney Harbour Bridge..or Brooklyn Bridge. You would be grateful to find yourself on the bridge because that would mean you were on your way. You wouldn't say "I don't want to be on this bridge. I want to be in Redfern or I want to be in Manhattan". Neither would you say "This will do, I suppose I will have to stay on this bridge for ever." You would regard your time on the bridge as absolutely fabulous because it was taking you to your destination. Every small change is a part of the bridge between today's events and your ultimate destination. Always remember, "In quietness and in confidence you will find your strength."

Make an entry in your diary for our annual conference on October 21st and 22nd 2017. We'll be meeting at Jemby-Rinjah Eco Lodge for our meeting on Saturday 21st and then having lunch together at a local venue. Sunday 22nd we'll have a joint meditation at the Grose Valley crystal. It's wonderful to meet other members face to face. Email Jane for more details.

MEETING OUR MEMBERS

Greetings and welcome, I AM Juanita Hall and I live in Sydney. I AM a conduit of high frequency star energies. I use these Frequencies to re-awaken and re-activate your dormant DNA and to reconnect you to remembering your galactic heritage. I was gifted these abilities during a direct contact experience with a highly evolved group of galactic Beings which lasted four hours. It was during this experience that I was opened to and blessed with my gifts. It has been made clear to me my life mission is in activating your "Divine Human Self" and reconnecting you with your star families and galactic families of the Light. To assist those on the Path to Ascension in traversing, understanding and integrating the higher frequency energies. I AM able to see, use and direct these vibrational frequencies both into human cells and energy fields as well as into water. They are usually in the form of Sacred Geometrical Symbols, Light Language or both (hand light language) which are channelled through me. I infuse these layers of powerful higher frequencies into every sacred journey I channel and record for you. This allows you to receive these higher frequencies every time you listen to or participate in one of my activations. The more you listen, the deeper layers you will access and the more pathways to remembrance you will re-connect. My aim is to unshackle you from any false beliefs about yourself and your world whilst assisting you on your journey of re-connection.

Juanita Hall

To experience the magnificence of realising who you truly are – As the global paradigm shift accelerates, the awakening process intensifies, thus I wish to empower you with the amazing opportunity to rapidly transform your internal set points to experience a new inner dimension of expanded awareness and a higher state of consciousness. I want you to experience life from the perspective of your Divine Self – your place of empowerment, creation and magic – To access your unlimited Intuitive knowledge. I will take you to that place of stillness deep within where miracles can manifest and then I'll fly you out to the farthest reaches of the multiverse. Many blessings to you all. Juanita.

MEETING OUR GLOBAL MEMBERS

Hello all, I'm Henry Brenner.

I was born in Rochester, NY, about 300 miles northwest of New York City. We lived in the southeastern part of this city which was at the time known as the headquarters of Kodak and Xerox. When I was nine, we moved to the suburbs. My parents put great store in reading and education, and in school I showed an early interest in science, mathematics and music. I played the French horn in high school and college bands and orchestras. I attended MIT (Massachusetts Institute of Technology) as an undergraduate, majoring in chemistry. I went on to do Ph. D. work at the University of Chicago and then did three years of post-doctoral work at the University of California at Berkeley. I was lucky enough to get a faculty position at New York University, where I stayed until my retirement in 2012. While on the faculty, I did some research in physical chemistry, dealing generally with the interaction of light and microwave energy with organic molecules. I trained nine Ph.D. students, as well as several undergraduate research students, but my main focus came to be undergraduate teaching. One of the courses I taught was called "Energy and the Environment", and this sparked my interest in environmental problems such as air and water pollution, ozone depletion, greenhouse gases, climate change and nuclear energy.

Henry Brenner

I was introduced to the Group of Forty through my wife, Kristine's participation. Based on my training as a physical scientist, I tend to see things from a third dimensional perspective. At the same time, I am well aware that there exist levels of being beyond the perceptive powers of the five senses. And I have also come to recognize the importance of the collective thoughts and meditations of the spiritually enlightened in working to help heal and protect the earth from the many environmental threats that it now faces.

Blessings to all

Henry

“Expand Your Consciousness” by David K Miller - Book Club

Chapter 12 Questions and answers prepared by Henry Brenner

15. Describe the analogy between your relationship with your mother and humankind's relationship with the Earth.

There is a parallel between your relationship with your mother and humankind's relationship with Earth. Your mother is affected by what you do. She has great loving kindness, compassion, understanding, and acceptance for you. Also, when there is danger, your mother will act appropriately. You know that most mothers go to extremes to protect their children. Humans are the children of Earth. Earth at this time is extremely receptive to your prayers and sensitive to humanity's input. Earth desires to receive spiritual input from you, the children of Earth.

16. What are some tools for communication with Earth's feedback loop system?

We know that the medicine wheel is one of the most powerful tools for beginning communications with Earth's feedback loop system. The medicine wheel can receive the dimensional omega light time particles, and those waves of light can be sent directly into Earth. The planetary ladders of ascension can also serve as receivers of the omega time particle dimensional waves. The ladders of ascension can act in the same way as the medicine wheel; that is, the ladders of ascension can receive and download light. The idea is that you have to pray and bring down light and bring down the energy into the ladders of ascension. When you reach these types of crisis situations, go into ceremony more often. Practice spiritual exercises and say more prayers. Spend more time in the medicine wheel and seek purification. Spend more time working to transmit your energies around the planet. Most importantly, attempt to listen to what Earth is saying. Also, do more chanting.

17. What is the Earth's feedback loop system?

The Earth feedback loop system is an energy vibration, an electromagnetic wave vibration. Some of the new vibrations coming to Earth are because Earth is in a different position to the Sun and in the galaxy. There is different electromagnetic energy. It is not only humankind's activities that affect the planet but also the energies Earth experiences on its path throughout the galaxy.

Chapter 13 questions prepared by Jane Scarratt

1. What will set the Ascension in motion?

The intersection between the 3rd and the 5th dimensions.

CORNWALL CAPERS

Hello again Starseeds
This month we are looking at Tiger Iron.
It has a hardness of 5-7. Smoke to cleanse in white sage. It is a trio of crystals - tigers eye, red jasper, and hematite - this banded stone of many colours is beautiful to behold with yellow brown/red/black/silver. See attached photo - I hope I've captured its lustra - if not find a piece which resonates with you! I find it is good for the lower three chakras - root, sacral and solar plexus. It is fabulous for energy, strength, stamina, courage and endurance -it enhances creativity and manifesting ideas into reality. This tri crystal can boost confidence and willpower - it will give you a good grounding to Mother Earth whilst centering and balancing the connection. It is a good 'all round' self healer and brings protection. Once you've found that special piece - attune to it using the meditation in our earlier articles. Again there is a plethora of knowledge out there on page or on the web!! It seems this month three is the magic number!! Until next time. Together in unity consciousness.
Namaste Stephen.

Bringing Herbs into your life

Blazing Star This herb gives the ability for the most humble to change into something quite magnificent and wonderful, especially in a spiritual sense. Individuals may experience change in their lives not knowing from whence it came. What is unknown may suddenly become known. The herb works primarily on the emotional body. The individual no longer stands in their own way. This is not usually perceived by the person, however, instead, they simply put less attention on the questions and more attention on new points of view, developing new ideas or talents. Psychic abilities that are dormant are enhanced. This plant is seeded into mankind to symbolize the very aspects of this surprise nature. The heart and crown chakras are enhanced. The emotional body is cleansed and augmented. Great to give a cat nine months after birth and a dog one year after birth when there is a difficult change they have to go through which occurs at these times.

CREATIVE COMMITTEE

After the AGM, the Committee will change it's meetings to the third Saturday afternoon of the month at 2pmDST. The first meeting will be on Saturday November 18th. We will have a meeting every three months and in between, we will be having a pcol committee meeting and a biorelativity committee meeting.

New Zealand

Auckland's coordinator is in the Gold Coast for the winter months, so the Auckland PCOL/PORL meditation is being held on the phone conference line. Next meditation is October 14th.

Maintaining a PCOL/PORL is really a community service. We are benefitting all the inhabitants. We are being of service to our community.

Why link our PCOL/PORL with pathways on the Tree of Life?

The paths on the Planetary Tree of Life represent a series of steps to achieve overall integration and planetary balance, which includes sustaining all life forms on earth. We would like to associate a Planetary City of Light or Ocean Reserve of Light with each path. What does this mean? (Cont:)

Each numerical path has a mission to explain the method of achieving the connection between the two spheres. For example, there is a line connecting justice and compassion. There has to be a balance, a way in which these two spheres are communicating with each other energetically, not in isolation. The path is teaching how to create a balance between the 2 spheres that it is connecting.

If, for example, the Sydney Harbour Planetary Ocean Reserve of Light is on path #21 that connects Mt Shasta, "loving kindness & compassion for the earth", with Volcan Poas, "strength, discipline and judgement for the earth", that Planetary Ocean Reserve of Light would have the mission of learning, then teaching and explaining how we create planetary balance between judgment and compassion on the earth. For example, if we have contaminated or destroyed parts of the earth, the earth might respond with harsh judgment, like volcanic eruptions or earthquakes as a way of clearing and resetting. But we want the new balance to occur with an integration of compassion and mercy on the earth. Therefore, we must find a *balance* so that the *judgement* isn't too harsh. At the same time, we can't be too understanding about people who are destroying the earth. We cannot let them have a free reign. We must figure out how justice can be implemented so that destruction of the earth can stop.

We will talk about this concept a lot more.

If you are interested in creating a PCOL/PORL in your area, talk to Jane. I am always delighted to assist. A small area is preferable.

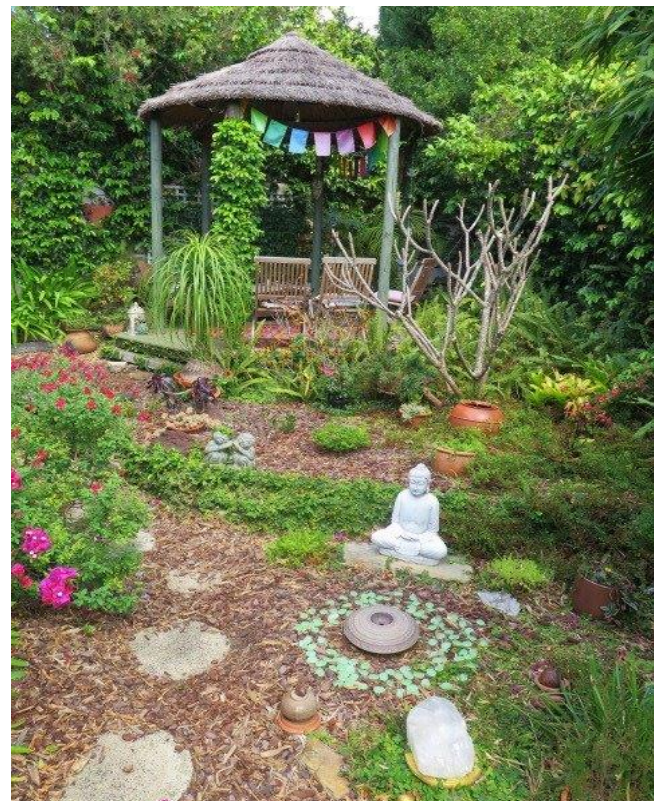

KIA ORA FROM NEW ZEALAND

The Eastern most point of East Auckland's PCOL, with the waters of Half Moon Bay leading out into the Pacific Ocean to the PORL. This grand specimen is the native Pohutakawa tree, lovingly known as the NZ Christmas tree. Maori have always said, when the Pohutakawa begins to flower, summer is here. New Zealanders watch every year for the first signs of the red bloom. They will be watching closely this year after a long, wet, cold winter. Spring can also be cold and windy. Our seasons change suddenly in New Zealand, so when we see this tree beginning to flower, we know summer begins, and it never fails to be a reliable indicator of a seasonal change. We can be in spring one day and summer the next, especially in Auckland where the climate is well known for covering four seasons in one day. Under this beauty is a quartz crystal marking the East point of East Auckland's PCOL.

HELLO FROM BART IN HOLLAND

Every human being wants to be heard

I have had great respect for how South Africa dealt with their violent past after the abolition of apartheid. Victims of gross human rights violations were invited to give statements about their experiences, and some were selected for public hearings. Perpetrators could also give testimony and so in many occasions perpetrator and victim were confronted. Painful, but also beautiful. Because of the setup of these reconciliation councils emotional wounds were soothed or even healed and the transition to a black government happened without the expected violence.

Traumas of violation can be healed faster when victim and perpetrator connect and really listen to each other. This happens sometimes in special groups like in Israel where 7000 Jewish, Palestine and Christian women walked together on the 8 October as part of the 'Women Wage Peace' movement, geared on creating a dialogue that unites. But at the level of groups or countries it appears difficult to master this principle. Take Spain, where there is great polarisation between Catalonia and Madrid, because of Madrid's repression of the Catalonians during WWII and long before. This emotional wound is the bases of the referendum since Madrid still does not want an open dialogue. In Holland we still struggle with our colonial past in Indonesia. Just after WWII the Indonesians fought for their independence and human rights were violated on both sides, but we still don't want to acknowledge our role and therefore it is still dragging on. The same applies with the role of Holland in slavery. As a result associated problems arise frequently in our society. I see more and more examples and I get the feeling that nowadays a lot of old traumas between (ethnic, religious or cultural) groups become visible. I really believe that these wounds can be healed faster when victim and perpetrator connect and really listen to each

other, like was done in South Africa. But it's also important is to realise that new emotional wounds can easily be created when people feel they are not being heard, not taken seriously. They become discontented and that is what we see nowadays everywhere in the EU.

It is not a coincidence that you see many new occurrences arise which show new democratic structures or expose shortcomings in existing ones with respect to this principle. I read recently an article of a former prominent EU-advisor, who said that there is no room for opposition at EU-level (read the EU-council of ministers). Opposition is the phenomenon that political points of view or decisions are publicly disputed and as a result an alternation of powers may occur in future. I recognise this because in the EU, the bigger countries are always in power and there is almost no room or consideration for the standpoint of a small country. Greece is a good example of this. And if there is no room for opposition, you automatically create a movement which breaks radically with the system. That is what we see with Occupy, Brexit, or the present attitude of Hungary and Poland in the EU. We say in Holland, "you harvest what you sow".

I think that respecting and listening to each other is one of the main principles of a 5-D society. That was already clear in relationships, but now I recognise this between groups or countries. That is more complex than between individuals and that is why a special set up is required. Mandela was one of the first who realised this on a bigger scale between 2 ethnic groups. Many others like the 'Women Wage Power' or the advisor in the above mentioned article know how to apply this principle between groups or countries. I am glad to see this; it is part of the transition to a 5-D society. But let me start it in my own life, then it can be spread through the Noosphere.

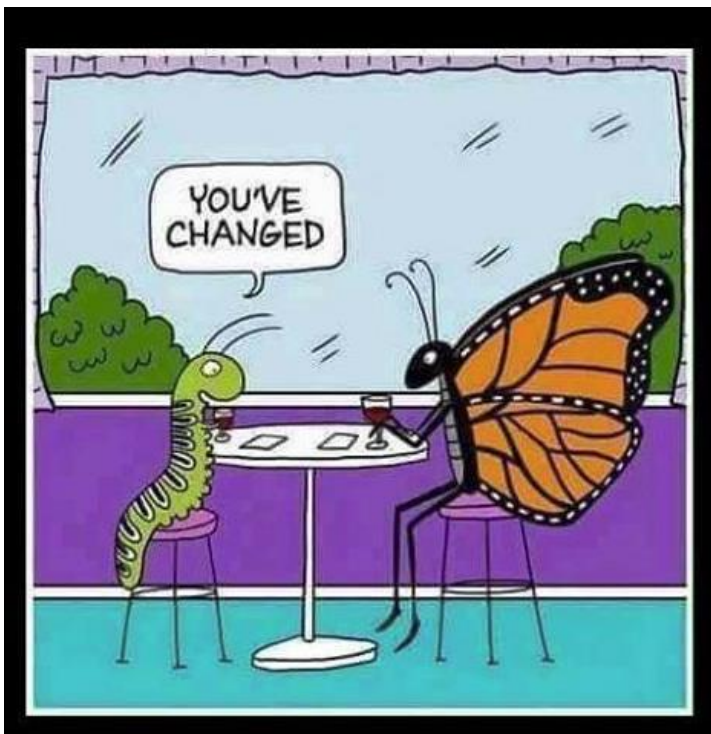

The Biorelativity Committee have suggested that we can now place GOF meditations on our personal facebook pages.

However, we feel an acknowledgment is required.

So, if you do place a meditation that you enjoyed on your Facebook page, could you also place the following acknowledgement:

This meditation is sponsored by Group of Forty and if this biorelativity concept interests you please contact David K Miller at davidmiller@groupofforty.com for further information.

VANCOUVER VIBES

I asked the members in Vancouver how they felt when they first met, and their experiences in burying the crystals around the perimeter of their Planetary City of Light, North Vancouver. This came from Maryhelen McCormick:-
First I must tell you that the comradery between the three starseeds (us) was instantaneous. The love that I felt for these two women was deep and natural. The picture shows where we buried the first crystal. It was my crystal contribution. It was a rose quartz in the shape of a heart that my son put into a glass salt shaker with dried healing herbs. The lid was sealed with wax. We took the crystal to Lynn Canyon where I love to hike with my dog and buried it in a natural hole created by the roots of a large cedar tree. The tree is near a beautiful water fall that pours into a shallow pool of massive lime stone boulders so that the water has a peaceful green reflection. We were all very,very excited and proud on this special day!

Message from Juliano

I, Juliano, am calling on the Arcturian starseeds and all those who hear this to participate in the healing of the space-time continuum rift. It can be healed through several of the technological tools we have presented to this planet including the crystal temple and the iskalia mirror. I am proposing that there needs to be a simultaneous lifting of crystal light energy. At this lifting of energy, we will use our assistance to bring a healing to the space-time continuum rift.

POSITIONS VACANT

You are the Group of Forty Australia. We are a team. There is no one person more important than another. I do need more of you to step forward to do some of the many jobs that are required for the running of Group of Forty Australia. If you would like to be more involved, please contact me so we can discuss the level of your participation. There will be three categories: **Biorelativity Program**, **Planetary City of Light Project**, **Administration**. My idea is for small groups to be involved in the expansion of the three categories, working together as a team. I stress that last statement...working together as a team. I look forward to hearing from you. With love.

UNIVERSAL LAWS

Many people say "I would like to know God's Laws, but I don't know them". So, in this newsletter for the next months, we're going to give you the Universal Laws. To merely read the Laws isn't enough. You must use the Laws and prove them correct. Everything works by Divine Law as there would be no order in the Universe without these Laws. It's very important for us to practice these Laws because a life without law and order can be a life of trouble, chaos, trial and error, or hit and miss. When you work with law you know the outcome of every venture **because** it is law and therefore it can't fail.

17. The Law of Colour

Colour is one of the greatest of all healing agents. It is a vibration vibrating at different speeds, for each colour has its own vibration.

Now, white is the colour containing all colours. It is well when sending healing to visualize the great White Light surrounding the one to be healed.

If you would heal the heart, it radiates to blue.

The liver is green, the brain to yellow, the solar plexus to purple, which is the spiritual colour needed to awaken the giant of wisdom resident in the solar plexus.

Learn to use colour, ask for it.

Visualise the bright cherry red for quick energy.

The great golden Light surrounding you is your protection against all dis-ease, harm, all negation. Keep yourself well surrounded in Light.

With practice it becomes a literal wall of protection. Nothing can penetrate this in its essence.

God's great gift to humanity. Why not use it?

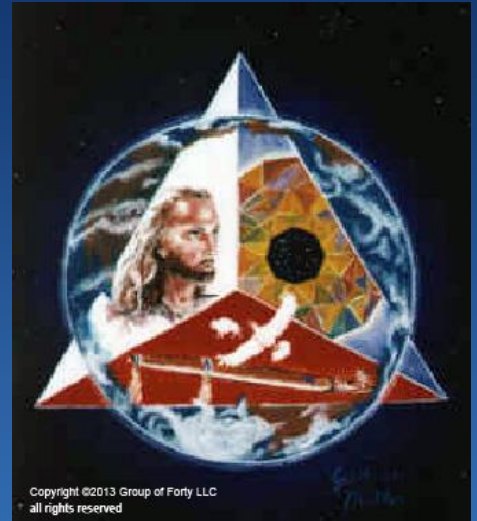

BIORELATIVITY TEACHING

One of the most powerful interventions in biorelativity is to access and work with Inner Earth energies. The Arcturians know that the key to proactive biorelativity is working with the feed-back loop systems in Earth. This can allow greater control of air systems, ocean currents, and solar-flux energies. All these Earth energies can be modulated through Inner Earth. Obviously, this biorelativity activity has to be done through specialized instruction and permission, and it can only be done by higher beings who understand the ramifications of working with Inner Earth energies. In this way, dramatic effects can be realized. These Inner Earth energies also serve a great higher purpose for your personal ascension and personal healing. Your DNA is totally linked to the inner core of Earth. You have incarnated and manifested on Earth; therefore, your human physical body obviously has a special core relationship with Inner Earth. This core relationship with Inner Earth is absolutely necessary and part of your incarnation energy. That is to say, you have special linked energy to inner core Earth and to interdimensional Earth. The inner core of Earth has certain corridors linking to the fifth dimensional Earth and to the fifth dimension in general. Thinking is the fastest light energy on Earth and in the universe. The speed of thought is faster than the speed of light. To work most effectively with the speed of thought, you can go to special sacred places where your energy is enhanced. Taken from Biorelativity: planetary healing technologies by David K Miller Ch 11.

"40 Groups of 40 will be formed for Personal and Planetary Healing Bringing us to the Fifth Dimension!"

We are dedicated to teaching humanity about the ascension to the fifth dimension.

We coordinate the creation and maintenance of Planetary Cities of Light and conduct Biorelativity Exercises to create energy for positive change in the world.
