THOUGHTS FROM JANE

People who are trying to follow the spiritual life often make the mistake of being too hard on themselves. Because they don't seem to be progressing as fast as they would like, or because they find themselves repeating the some old fault which they thought they had overcome, or because after years in the teaching they catch a cold occasionally, they feel discouraged and condemn themselves mercilessly. All this is foolish! If you are doing your best to use what Truth you know, at present, you are doing all that you have a right to expect of yourself. When one of these negative situations presents itself, know the Truth about it, ie *treat it* and then treat your own sense of disappointment and discouragement and believe that this prayer will be sufficient. Don't be a victim and make a fierce resolution to change all that. Such a procedure would be using will power, and would really be building up the problem to many times it's original size. Believe in your prayer. Don't be impatient with yourself- but don't be lazy or complacent either. Deal with yourself as a wise parent would deal with an obstreperous child- kindly, patiently, with firmness, not expecting too much too quickly, but foreseeing inevitable growth and improvement. There are some people who refuse to recognise their faults and failures and try to find an excuse for everything- but they are on a spiritual path. Sincere students of Truth always tend in the other direction. We owe christian charity to ourselves as well as to others.

MEETING OUR MEMBERS

Hello all, my name is TrINETTE Charleson. I live in Moorabbin, Melbourne Victoria.

I was brought up in Swan Hill in country Victoria by my maternal grandmother who was an amazing soul.

I have a wonderful partner and four beautiful children, ranging in age from 9 years to 15 years of age, all of whom are qualified as Level One Reiki Practitioners.

After I left school, I studied Human Movement in Ballarat and joined Victoria Police in 1996. After the birth of my first child I studied to become a fully qualified massage therapist. I also studied Reiki and became a practitioner and then I did further study to qualify as a practitioner of Geometry and Earth Acupuncture.

This is an unusual modality and it means I work on aligning the meridians of the earth, very similar to acupuncture on the human body. Geometry works with the earth's ley lines, which are straight fault lines in the earth's tectonic plates which release magnetic energy.

I've been a member of Victoria Police for the past 21 years, working my way up to become a Sergeant – but now I'm advocating for women's rights and mental health within the force.

I believe that to balance the energy meridians on Planet Earth we must balance the feminine and masculine energies within organisations/establishments which have predominantly focused on male energy.

TRINETTE CHARLESON

I was introduced to the Group of Forty by my wonderful friend and neighbour, Micki Kellet.

I then became involved in maintaining the Mornington Peninsula Planetary City of Light and the Port Phillip Bay Ocean Reserve of Light.

I am a new member who is in her infancy regarding knowledge about Arcturians, Pleadians, Sirians, and the Galaxy. This involvement has resulted in a thirst for knowledge and I feel a desire to heal everything and everyone NOW!!

MEETING OUR GLOBAL MEMBERS

Hi everyone,

I am Cora (Corae) Lierman, Licensed Massage Therapist, Lightbody Practitioner. I live in Beemer, Nebraska, where I have had my clinic for 24 years. My focus has always been to help create balance with the mental and emotional body's, so the human vessel, the physical body, may grow and thrive. Helping my clients understand and work with the Spiritual body, so they no longer work against the process.

I have been a member of the Group of Forty since 1997. Working with the Sacred Triangle and the Crystals has accelerated not only my personal growth, but helped me to assist my clients.

The study of the Tree of Life class with David helped me to develop a clearer protocol for advanced awakenings for my clients understanding.

Recently I have chaired the Native Peoples Sacred Triangle Committee, as we continue to emphasize the need to work with all Three Sides of the Sacred a Triangle in working to create Earth healing.

I spend much of my time interacting with my daughter and granddaughters along with the extended family of my siblings. I feel fortunate to be here in the United States to have been able to sit in personally at David and Gudrun's workshops, so as to have been on the cutting edge of this great work that the Arcturians are teaching us, Bio-relativity Earth Healings. I enjoy the bond of working with like-minded Star Seeds.
Blessings Corae

Longing

Longing is the core of mystery,

Longing itself brings the cure.

The only rule is, *suffer the pain.*

Your desire must be disciplined,

and what you want to happen in time, sacrificed. *Rumi*

Sydney Group of Forty members participated in a two day conference on July 29 - 30 in the Mosman Art Gallery. Mosman is a trendy suburb across the Harbour in the northern peninsula of Sydney. Speakers were: Duncan Roads from Nexus magazine; Jim and Lisa McDonald talking about Plasma science and Keshe technology; Mary Rodwell on ET's; Richard Dolan on The Secret Space Program and Mark Robinson on alternative currencies, governments, bank control and secrecy. Carel Fillmer, Ulli Hansen and Elizabeth Clarke were our representatives. Carel said,

"We had six people sign our contact list and more than a few dozen flyers were taken".

“Expand Your Consciousness” by David K Miller - Book Club

chapter 12 Questions and answers prepared by Henry Brenner

1. What is the question at the center of all planetary healing work?

You need to ask the question at the centre of all planetary healing work: “As starseeds and as planetary healers, how do we work together to bring down fifth-dimensional energies directly into this planet?” The maximum input of fifth-dimensional energy is needed now. This is a time that needs increased biorelativity. You need to increase your spiritual powers and your spiritual practices of planetary technology.

2. What is the difference between the ancient times and the modern era, in terms of the passage of time?

The imbalance will not easily be rectified without an input of fifth-dimensional energy. Great spiritual teachers and great spiritual prophets have been on this planet. These prophets and spiritual leaders have had a dramatic effect on the planet and its religious, economic, and political situations. Interestingly, their effects are often postponed; they can take centuries to become firmly rooted and directly show their most powerful influence. A simple example of this is that Jesus's influence on Earth didn't really become powerful until several centuries after his passing. **There is a difference now between the ancient times and the modern era because you are living in what I call an omega time zone, which is a zone in which time can be accelerated.** It is an era in which multiple events that seemingly would take decades or years to occur can transpire in a month or two. In an omega time zone, you feel as if you have had several lifetimes in the past year or two. You may have already experienced this in your personal life. I am sure that there are times when you feel as if you have gone through a whole lifetime, but it has only been six months. Earth is in the omega time zone. Planetary healers can take advantage of it by gathering their forces and energies and using the thought powers in a simultaneous manner to create a shift or change.

3. What are inter-dimensional waves?

This shift, or change, is amplified by the dimensional waves that are already occurring because Earth is closer to its intersection point with the fifth dimension. **Interdimensional waves are electromagnetically charged particles that contain the omega-time energy particles.** That means that these waves can accelerate the shifting of energies.

4. Is it a valid assumption to say that that Earth is not affected by humanity?

One of the greatest assumptions humans can make is to say Earth is not affected by humanity.

CORNWALL CAPERS

Dearest Lightworkers,

This month I have chosen Selenite. Selenite is the gem quality form of the common mineral gypsum. It is commonly found in shades of transparent to white - but sometimes shades of other colours. It is one of the softest crystals with a hardness of 2 - so only cleanse this by smoking in white sage - handle with care as you can break this tender mineral easily with a fingernail!! See the examples in the photo. In return this crystal will be a lovely cleanser for your aura, it is good for clearing negative energy and unblocking stagnant energies. It can bring clarity of mind and expands consciousness. It is good to use on the crown chakra helping access to the higher levels of self.

It is excellent for protection because of it's rapid flow of clearing and purification energies. Choose a piece that calls to you and attune to your chosen piece using the meditation in our early articles. There are books and information out there on the www if you have been inspired!! Until next time - together in unity consciousness. Namaste Stephen

THE BOOK CLUB

Australia's next book club discussion will be **Friday, September 1st 7.30pm EST**

Chapters 19 & 20 incl. "Teachings from the Sacred Triangle" Volume Three Questions prepared by Jane Scarratt and Carel Fillmer

Bringing Herbs into your life

Bistort grows in the higher mountain regions. When this herb is used individuals, in knowing and loving the planet may feel that something must be done with what they have learnt. Ultimately, this spiritual application permeates all facets of one's being and spiritual integration is encouraged. This means that concepts from a religious doctrine or philosophy are merged, and a person may more easily absorb and work with those facets they find most true and important. **The ability to know quickly whether what someone is saying is truth or not is enhanced.** This is because there is an alignment with the higher truth. When this is simply a matter of judgment the conscious mind is too involved, and it is not what is meant here. Rather there is the ability to know that what someone is saying is in harmony and aligned with what you feel to be the truth.

CREATIVE COMMITTEE

The next **Creative Committee** meeting is on Wednesday August 30th 2017 at 7.30pm EST on skype. If there is something you would like discussed re your GoFA, then contact Jane. **We welcome new members to the Committee. We meet once a month on skype for around an hour to discuss strategies and new ideas to expand GOFA.**

PCOL Coordinator News

The next **JOINT pcol/porl MEDITATION** will be held on August 16th at 8pm EST. Carel Fillmer will be your presenter. Please consider finding the time to join in. We have linked each PCOL/PORL to a sphere, a guide and a pathway of the PTOL. There will be more on this as the PCOL Committee expand it.

Creating and maintaining a Planetary City of Light takes action by its members. It takes consistent monthly or weekly meditation. Just as with our personal aura, a City of Light/Planetary Ocean Reserve of Light needs frequent clearing and maintenance of its vibratory frequency.

It is important to have a number of GOF members living within the City of Light area coming together regularly to bring in frequent beams of higher Light.

Vancouver, sister city of Gold Coast, will be activated as a planetary city of light on Monday August 14th at 10am. You will receive a link. Please join in.

The **Perth** groups are becoming stronger. We now have enough members to set up the first PCOL over there in **Swan** and we are looking to expand to **Shelley and Applecross** and create PCOL's there.

Auckland's coordinator is in the Gold Coast for the winter months, so the Auckland PCOL/PORL meditation will be held on the phone conference line. Next meditation is August 12th.

If you are interested in creating a PCOL/PORL in your area, talk to Jane. I am always delighted to assist. A small area is good.

WELCOME TO OUR NEW MEMBERS IN PERTH WA

Zora Harvie. Zora is a past member who has returned to GOF. **Monika Jakli.** Monika was the first person to step forward to support GOF when we first started in Perth.

OUR DEEPEST SYMPATHY AND LOVE

to Belinda Simpson of Sydney for her loss in the passing over of her beloved and beautiful mother.

DIARY ENTRIES - FUTURE WEBINARS AND MEDITATIONS

We have a **world wide meditation** on Monday August 14th at 3am EST. The theme will be "Communicating with the future earth"

We also have a **webinar** on Sunday August 20th at 8am EST. The topic will be **"How can you personally assist the Planetary Ascension."** Speakers are David Miller, Gudrun Miller, Cosmin Supeala and Jane Scarratt.

We won't have a meditation on Sunday August 20th because of the webinar.

Please start thinking about coming to the AGM in October. It's always wonderful. There is such an upliftment in your energy field from interacting with like minded people and also the interaction with the energy of the Grose Valley crystal. The workshop with David and Gudrun, too, is always a boost to our light quotient. The Committee will send out an invitation this month.

KIA ORA FROM NEW ZEALAND

Musick Point is the north point of our PCOL. This is the site of the Musick Memorial Radio Station, an impressive building in the 'Moderne' style, which was opened in 1942 to communicate with ships and aircraft.

Bucklands Beach sits at the northern end of a peninsula between the Tamaki River to the west and the Hauraki Gulf to the east. At the peninsula's northernmost point, Musick Point juts into the gulf

VANCOUVER VIBES

North Vancouver is situated in the Lower Main Land of British Columbia, Canada. The coastal areas of south western British Columbia, Canada, were originally populated with indigenous tribal communities that is now known as the Squamish nation people. There is a rich spiritual history here birthed from the Squamish people that now exist in small numbers on local reserves. North Vancouver is situated between the mountains and the Pacific Ocean. The area is filled with houses & small apartment building with the occasional shopping areas. There are many rivers that branch from the mountains to the ocean. Many of them support salmon migration through canyons and waterfalls. Often wildlife is seen venturing down the mountains into residential areas. A variety of birds from bald eagles to hummingbirds fill the abundance of spruce and cedar trees. The beauty of this land is truly divine and abundant in spiritual life force.

This is quite an honour for one of our members in USA. We introduced you to Bonnie Sue Rauch last month.

To help pay tribute to the importance and beauty of **pollinators**, the United States Postal Service will showcase stamps depicting the monarch butterfly and the western honeybee. Each pollinator will be shown industriously pollinating a variety of plants native to North America. Bonnie Sue's photo was chosen to be part of the 5 stamps presentation. Well done!

If you would like to be part of the Biorelativity Meditation: Earth Balance Team, please ask Carel Fillmer for details.

We welcome new presenters.

This is an opportunity to enjoy the delight in presenting meditations for the members.

The Biorelativity Committee suggested we change the name of our Earth Balance meditations. So we selected - Earth Balance Biorelativity Meditation. This change is in recognition of these fabulous meditations and the commitment and dedication of the presenting team.

Message from Juliano

I, Juliano, am calling on the Arcturian starseeds and all those who hear this to participate in the healing of the space-time continuum rift. It can be healed through several of the technological tools we have presented to this planet including the crystal temple and the iskalia mirror. I am proposing that there needs to be a simultaneous lifting of crystal light energy. At this lifting of energy, we will use our assistance to bring a healing to the space-time continuum rift.

HELLO FROM BART IN HOLLAND

In the Netherlands, another attitude towards water

The Netherlands are greatly formed by their relationship with water. The sea and the rivers brought the danger of flooding and enemies, as well as abundance, because of trade and exchange of culture and ideas. The last sea flooding was in 1953, and a huge Delta plan was designed to protect our coastline. But since then everybody felt safe and the concept of flooding seemed to disappear in our minds. This changed radically in 1995 when there was a severe danger of flooding of the Rhine and **two hundred and fifty thousand people** had to evacuate their houses. This had a tremendous impact in Holland. It appeared to be a wake up call that flooding is still possible. This was amplified by climate change and the danger of sea flooding. This resulted in a complete different mindset towards water management.

We started to understand we had to cooperate with the water instead of fighting against it, by only implementing higher dikes. And so, a lot of unoccupied land is now designated to be flood zones in case the river level rises too high. This is supported by all kinds of sophisticated measures. **The plan is called Space to the Rivers.** This giving space to the rivers is part of a broader tendency. In our towns a lot of channels had disappeared in the last century. In our mindset there was no room for water, we needed the space for roads and houses. But in the last two decades a lot of channels have reestablished themselves so now,, we give space to the water in our cities. A few weeks ago I read an article about the water management plan of our harbor, Rotterdam. It combined water management with all kinds of social and cultural innovations.

Many water management people from all over the world visit Rotterdam nowadays to learn from our ideas and experiences.

Because of all these examples, I get the impression that our attitude towards water has changed. Not only for safety reasons, but we seem to appreciate its qualities more and we respect our channels, rivers and seashore more. We give water space, cooperate with it and as a result we find innovative ideas.

This summer my wife and I spent our holidays at the river the Rhine. We wanted to feel the Rhine. It was awesome. It was fantastic to walk, to bicycle or just to sit along the river. My wife and I were mesmerized by (the spirit of) the river. When writing this column, my wife said: "we just honour the river on behalf of our nation. We just do this consciously, what is done by our nation more or less subconsciously". I think she is right. And I wondered what is the impact of this changed attitude towards water for a nation? Do we reclaim our water qualities back as a nation? I don't know what this will bring, but I embrace the idea and I honoured the river whilst I was there, as I honour the water in my own area.

UNIVERSAL LAWS

Many people say "I would like to know God's Laws, but I don't know them". So, in this newsletter for the next months, we're going to give you the Universal Laws. To merely read the Laws isn't enough. You must use the Laws and prove them correct. Everything works by Divine Law as there would be no order in the Universe without these Laws. It's very important for us to practice these Laws because a life without law and order can be a life of trouble, chaos, trial and error, or hit and miss. When you work with law you know the outcome of every venture **because** it is law and therefore it can't fail.

16. The Law of Materialisation

Everything you imagine must materialize in the outer world. You, as man/woman, are a creator in human form. Man/woman creates all there is. It was always like that: Everything is made in the beginning stage, as idea! Nothing can be created, or manifest in the outer except it is first conceived in the inner, or mind of man/woman. **And so is explained the truth, AS WITHIN, SO WITHOUT.** When you constantly image, you create. And can a 'fig tree produce anything but figs?' If you imagine certain things they must become real to you because you are praying for whatever you think about, or think of. Suppose you want something or want to accomplish a certain thing. First, there must be a perfect mental concept of the thing, of its conception. Then, know that whatever you can conceive, you can achieve. Amen to that!

BIORELATIVITY TEACHING

Biorelativity is based on the needs of human beings in relation to the planet. So why are we using the terms "bio" and "relativity?" From a scientific standpoint, many people would argue that a new balance of Earth is now coming into the forefront. You may even hear people use the argument that Earth changes have been happening periodically for a long time. There have been ice ages before. There has been warming of the planet. Yes, this is all true. However, from the "relativity" standpoint, major Earth changes are not always in the best interest of humanity. Biorelativity describes how people can beneficially influence Earth.

One of the most powerful traits of a fifth-dimensional planet is that it can interact telepathically with its inhabitants. This is a form of interaction that is based on the technology of biorelativity, a process in which the inhabitants of a planet use their telepathic powers to help create and shape an environment that is in harmony with their own needs and desires.

The first technological term I want to talk about is the term "arcan." An arcan is a unit of measurement that we on Arcturus use to describe the strength of a thought vibration. On Earth, you might use terms like watts or volts or amperage to designate or describe the characteristics of electric energy or current. You might also use certain units to measure the strength of electromagnetic rays or electromagnetic energy. We know that the thought wave is an electromagnetic energy, but it is of such a faint nature that humanity does not have the instruments to measure its strength; there is therefore no reliable instrumentation on Earth now to measure the strength of a thought wave.

LIVE POETS SOCIETY

Poem by Alessandra Gilmi

We shed out skins to give you paper
 Let you nap in hammocks in our arms
 On summer days when the sun raged like a
 wounded woman Our leaves, cool green
 music, calmed you
 When winter flew into your window like a bat
 Our loins gave you fire
 Our fruits and saps we offered freely
 To keep you alive
 With penknives you carved hearts, Raw
 valentines
 You carved Joe & Lucy, Erica and Tim You
 made love on our soil
 When the rain fell like stones
 We stood tall, marked with your names
 But now we are scant and thinned
 Our veins collapsing like gun-shot birds
 What happened to our elegant lives?
 In the Amazon we are being burned alive
 -one stadium field minute-
 Our trunks are bleeding fire for you
 Swollen suns sink into your violent houses
 The birds are bones-on-fire wailing
 We are afraid
 Dawn has become a spectacular bruise on
 your skin What can we do?
 What can we do to ease your pain

Postscript from Alessandra:-

"In this poem's last line, the trees ask the
 humans, "What can we do to ease your
 pain?" Why?

Because the trees, in their infinite wisdom
 know that when we humans cause harm
 to other life forms, we harm ourselves.
 When we cause any other of God's
 creatures to suffer, we suffer ourselves.
 That is the law of unity consciousness as
 we all are one."

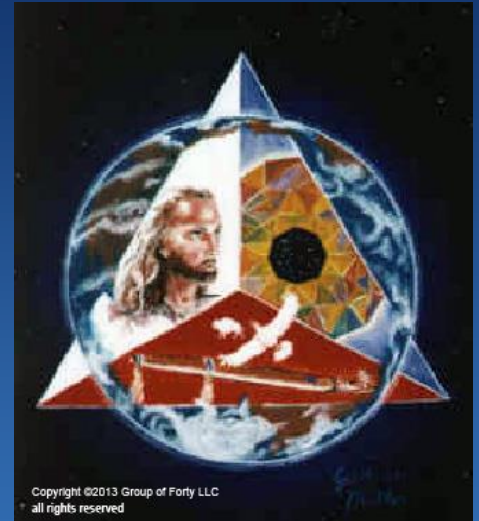

A Matter of Consequence - by an unknown Aboriginal author

From time to time I sit and stare,
 observe this land that is now bare.
 Most proceed without thought or care
 for this spiritual sanctuary we're meant to
 share.
 More land is cleared new buildings raised,
 toxic waste dump proposals ensure an
 early grave.
 Silently the ghosts of millennia past
 refuse to submit to modernity's farce.
 They rise through the soil then into the air,
 seeking revenge for two centuries of
 despair.
 To politicians and others who've never
 been fair,
 I strongly suggest, beware, beware...
 The wrath of those spirits who live in the
 earth,
 those ancient guardians who lived here
 first
