THOUGHTS FROM JANE

Manifestation. Any kind of worry is negative, whether it's about finances, health or even members of the family. Worry is a form of fear and that is the opposite of faith. We shape our future by what we expect; our inner self manifests what we expect; our expectations are a magnet to draw the expected result into our reality. Worry means we expect a negative outcome and will help to make it happen! So, we need discipline around our mental processes. Our main lesson is to learn at the mental level to know what we want and then without wavering expect it to manifest sometime in the future. It is best not to set a definite time limit. The critical factor is our unwavering faith until the event happens. If we have a specific purpose to reach ascension in this lifetime, we could start with a severe handicap filled with difficult and perhaps tragic karmic events. These tests have to be passed before reaching the higher goal. On the spiritual path, bad things don't just happen by accident. Stop worrying; whatever happens is good if it helps us to reach our goal. We pass tests to make sure we have learned our lessons. Otherwise, the lesson will be repeated over and over again. Go with the flow of life and do the best you can without trying to make things happen to a preconceived plan.

MEETING OUR MEMBERS

Hello all, my name is Jonathan Bell but I am always known as 'Ding'. I live in Bowral on the Southern Highlands of New South Wales, Australia. Since my retirement from the legal profession, I have continued to be a beef farmer and have also become a vigneron and manager of Topers Wines. I'm also an author. During my working life I was a solicitor and barrister, holding many positions until I retired. I now find I am busier than ever. Apart from many sporting organisations, I have been involved in community organisations for all of my working life-including Surf Life Saving, a Handicapped People's Association, the Lions Club of Australia, Barnardos Australia (the Children's Charity) and Legacy, the uniquely Australian charity dedicated to caring for the welfare of the wives and children of deceased war veterans. I was privileged to serve for many years on the Executive Council of the NSW Farmer's Association. In 2006, I was deeply honoured by my recognition in the **Order of Australia** both from a personal level and also on behalf of the organisations that it has been my very great privilege to serve. These organisations, and the contribution that they make to the betterment of our Australian community, are the real focal point of my recognition in the Order of Australia - far more so than anything I may have contributed personally to such organizations along the way. For, as is so true of many awards of this nature, that which is being honoured is very seldom the work and achievement of one individual but rather the contribution of the organisation that such individual has had the privilege of representing and serving.

JONATHAN BELL

If the receiving of my Order of Australia award enabled me to have just one wish, it would be that all young Australians should become involved in volunteer work dedicated to helping make Australia a better and more caring country. Through my dear friend and step daughter, Belinda, I have come to know and respect the divinely inspired and critically important work of the Group of Forty Planetary healing group. As the newest boy in the Australian group, hiding up in the back row, it is my sincere hope that, in the fullness of time, I may be guided and enabled to become of meaningful assistance to the Group of Forty and their vitally important planetary healing work.

MEETING OUR GLOBAL MEMBERS

Hello all you beautiful Starseeds! Greetings from Harrogate, North Yorkshire, England, home of the stunning Yorkshire Dales and the Taylor's of Harrogate tea HQ; this may mean something to you if you enjoy a nice cup tea! My name is Hannah Taylor, and I have been living in this beautiful part of Northern England for 4 years. I am not native to this part of the world. Love and life has brought me here. I am originally from Manchester, England, and I have also lived in the South Coast of NSW Australia for 13 years between Nowra and Sydney, until 2012. I am a creative soul. My university degree was in Fine Art Painting, and my love of colour and light has led to work in interior consultancy and presently I renovate homes for sale, with the ethos of giving someone a home that has been improved and finished with a creative eye and energetic awareness. My healing and meditation work started in my 20's when I studied Feng Shui and traditional Reiki healing. I am now a Usui Reiki Master and an Angelic Reiki Master; I train and pass these healing modalities to others.

During a workshop in Glastonbury 2015, whilst using Crystal Skulls to access Galactic Race consciousness and higher knowledge, I became aware of Arcturian beings wishing to help me forward on my path. They are such a loving and encouraging group and I have overwhelming affection and love for them and their input and guidance in my life. When I asked what I needed to do to enhance my abilities on this Earth plane, they suggested a formal meditation training and qualification. Learning to teach meditation has given me so much confidence in my abilities to present myself to an audience.

HANNAH ELIZABETH TAYLOR GOF Coordinator North England

I am sure that this new confidence and skill will be put into good effect in coming months with the Group of Forty guided meditations! It's wonderful to be a part of an international and galactic effort to help our beautiful 'Water World' Planet. My understanding of my star lineage is Pleiadian; I believe I was in temple service in Atlantis as a priestess working with light healing and working with animals. I have a strong affinity with elementals and beautiful healing crystals and gemstones. I am committed to anchoring Fifth dimensional light through Arcturian and Archangelic assistance. I wish you all Heart felt blessings for these exciting years ahead as we transition into an Ascended Fifth Dimensional Earth Planet, Hannah

DID YOU KNOW...

The Noosphere is the collective energy vibrations of the Earth and the Earth's interaction with all thought patterns that are occurring, and have occurred on this planet throughout its history. This is a fantastic repository of thought energy, an actual energetic web of thought energy that is a thought field.

This Noosphere is a thought field composed of thought waves and thought particles accumulated over the existence of the history of the planet. Mankind's thought waves and energy have had a more dramatic effect on the Noosphere because mankind is the highest being that has been on this planet. When I say highest being, I mean mankind's thoughts have been more powerful than those of any other being that has been on this planet. The Noosphere also contains the Collective Unconscious and Subconscious energies from the Galaxy. The planets are linked in a web of thought particles and thought transmissions that are a web of galactic vibrations. That means that planets have knowledge of different stages of planetary evolution. A planet knows what stage of evolution it is in.

The stages of evolution are measured in two ways. The first is whether or not it has life on it. The second way is measured whether it has advanced life on it. Advanced life is defined as the ability of the beings on the planet to influence the planet. Mankind is still in an early stage trying to work out whether to destroy itself, destroy the biosphere or to advance to a higher evolutionary state.

We are still struggling to understand that Earth is a living spirit that we can communicate with. One of the ways of communicating is through the concepts of Biorelativity. One of the basic tools of biorelativity is ceremony and talking to the Spirit of the Earth. The Earth responds to this kind of talking. The Earth responds to the Medicine Wheel and to Man's thought waves and images. The Earth also responds to the galactic communications from other sources.

These thought waves and patterns are going directly into Earth's noosphere, directly into your subconscious and your superconscious.

Earth will ascend and you will ascend. Ascension energy is inherently in our collective unconscious and the planetary super conscious.

CORNWALL CAPERS

Well 2018 is here and so is another article about Crystals! This month we are gazing at the heavens - well at **Moonstone** (white - although it does come in different colours such as grey, peach, and many others including cats eye and rainbow!). It has a hardness of 6-6.5 - and it is best to use white sage on stones under hardness of 7 for cleansing. Moonstone is a member of the feldspar family group and it has been used in jewellery down through the centuries being popular with the Romans and more recently experiencing a rejuvenation in popularity during the Art Nouveau period. Moonstone was believed by ancient people to be moonlight in a magical solid form as it has a moon like shimmer. It is good for the third eye and the crown chakras - helping with creativity, vision, insight and psychic connection - and can help you connect with spiritual guides enabling two way communication. It is calming, brings peace of mind and helps balance emotion. Moonstone brings in the goddess/divine feminine energies which are supporting and nurturing - a constant flow of gentle energy helping to cleanse the aura and help with overall circulation. Of course it goes without saying that it is also soft and soothing- so you can use this beautiful crystal with confidence. So get a little light in your life and find a piece that resonates. Use the meditation from our early articles to welcome this crystal. Don't forget regular care and cleansing. Together in unity consciousness. Namaste Love and light Stephen

WHAT SHALL I ASK FOR in 2018

It is good to throw away the old calendar with its all too familiar picture and hang something fresh on the wall.

How clean and bright the new calendar looks! It seems to symbolise the fresh hope for this new morning of a new year.

But as I flick through the crisp new pages of the months I am suddenly aware of the strange mystery of the future.

These pages with their neat rows of dates represent un-lived Time, the promise of seasons not yet come to fulfilment, days not yet granted, days that are still God's secret.

What shall I ask of the year at its dawning?

What shall I ask as I face the new day?

What shall I ask on the very first morning?

What shall I wish, and for what should I pray?

Ask for an eye that is open to beauty.

Ask for a faith that no bludgeon can break.

Ask for the patience to do every duty -- with a good humour that nothing can shake.

Now at this time of the years new beginning, pray for these gifts.

They outweigh all the rest.

For without these, there is naught worth the winning.

Ask for these things that your days may be blessed.

With acknowledgement to Winifred Emma May who wrote under the pen name Patience Strong. Thank you Jonathan Bell for the contribution.

Bringing Herbs into your life

Cayenne. There is a transference of the heating ability of cayenne onto the spiritual level. It speeds up all levels of action on the spiritual plane. Meditation towards a specific end will be speeded up. Or, if you are attempting to focus energy for healing, this will be accelerated. Because of this heating effect, the heart opens more. This is under the direction of the will, so you may choose to use such a heart opening in ways that are appropriate to you. The heat of the cayenne is part of the signature. This heat effect can be smelled by some, and sometimes, it can be seen on the etheric level as a fire around the plant. The inner lesson of cayenne is to provoke choice. This is the karmic lesson of cayenne. Choice on the heart level is extremely difficult for most individuals. When you have this loving feeling you have the opportunity to share it with many individuals or with only one person.

EXTRACTS FROM THE BOOK CLUB

What are our instructions as star seeds?

We are to use that power to manifest ourselves as changed beings. The instructions for star seeds include personal manifestation of our highest powers and the personal manifestation of our own actualised self to the highest potential. Being multileveled includes spirituality. It also includes personal work and enlightened path, and harmony for our individual life. These are to occur simultaneously. As we are working on the level of global spirituality, global community, and global evolution, we can use that same energy to activate the power and the prosperity and the enlightenment for our own individuality and what is sometimes referred to as our own salvation.

What is the highest energy to introduce into a species and why?

This is thought and spiritual light energy. This is higher than any physical intervention. The spiritual light that comes from the galactic sun is connected to the great central core of the universe. It is also connected directly to the central core of Adonai. It is a link within a link within a link. The light work involves how to use this energy. It is directed and focussed into accessing the internal codes of evolution within your mind and within your central computer that operates not only the Earth self but all of your multi-selves.

What happens when we align our consciousness with the Central Sun?

We will gain access to the spiritual energy that will accelerate our personal evolution and the evolution of humanity.

KIA ORA FROM NEW ZEALAND

Howick, the centre of East Auckland's Planetary City of Light, was one of the first historic settlements founded around the southern aspects of Auckland. The Fencibles (comes from the word defensible, meaning capable of defence) are soldiers of "good character and industrious habits" were required to settle here from Britain, and defend Auckland in the early 1800s. Free passage for their wives and families, an acre of land, a cottage and a small pension, was the reward for such a long voyage by ship. These small settlements are well preserved today, with fully operational schools, churches, cottages, blacksmiths, and infirmaries. But this story is not about these soldiers and their families, it is about the children of today's East Auckland Planetary City of Light. Every 3rd Sunday the settlements come alive with characters from the East Auckland Historic Society. Amongst them are many children who put away their computer games and cellphones, turn the TV off, and give up their friends for the day. Dressing in the fashion of the day, they voluntarily perform day to day tasks expected of the children from the early 1800s. This commitment all year round is considerable for a child, especially the younger children, but the enjoyment of dressing in clothes of the past and performing these duties shows a passion, respect and love for the way of life and values of the children from a time long ago. They do this to provide a memorable experience for the many visitors who come to this historic area. Oh, how I hope that these will be the children who grow up to become our future leaders, our politicians, our guiding members in society,

who will put aside selfishness, greed, and ego, and lead this city, this country, and this world from the heart.

HELLO FROM BART IN HOLLAND

Another view on Europe

I am inspired by the lightwork for the European Union by Ton van der Kroon. The situation in the European Union is precarious: apart from political and social problems there is a growing polarisation. The real problem is that the EU is based on economic benefits and not on a spiritual foundation. So we see a lot of self-interest, bureaucracy and a lack of spiritual leadership. Ton says we need to bring back the heart in the EU and since Brussels is the centre of it, he presents his lightwork in Brussels. By setting an intention, following the life signs, he and his group come into situations in which the darkness is exposed. By just being there, allowing and experiencing the darkness, light is provided. He writes beautifully about his work and how he is led by Mother Mary in this work. He channelled recently: "This is the voice of Maria, I am the protector of Europe. Europe is not an ideal. It is not perfect. It will never be finished. It will involve conflict and confrontations, but it helps to create a better society, a society shaped to the desire, needs and aspirations of the next generations....Europe is going through a healing process of death and rebirth. ... I am the mother giving birth; you are the midwives, helping to give birth to this new nation of countries, in which diversity and unity are the new rules, the new concept of democracy, in which all colours, all people, all races, all ages have their place in the order of things. There is a new order coming out of the chaos, but it asks you to take your position;

to hold the space in order for things to develop in a fruitful and positive way.

This means you can hold the extremes of polarities within your own heart, neither favouring dark nor the light. You stay neutral and just embrace everything and everyone. And know that you are with many and that you can do this..."

You might ask, would it help? But Ton says "lightwork is like adding a homeopathic dilution to the system, so that the self-healing capacity can be stimulated".

He suggests: "light a candle, be silent and just focus on everyone in your heart and expand the circle, till you embrace all of Europe or the world".

I would like to add, hold this perspective on Europe, especially if you read the paper or see the news. For if all of us see the current situation in Europe just as the necessary contractions, than it will be a smooth delivery of a newborn Europe. January 2018

Biorelativity Coordinator News

If you would like to be part of the Biorelativity Meditation Earth Balance Team, please ask Carel Fillmer for details. carelfillmer@gmail.com

The Earth Balance Team is now working on the Equator meridian. The next meditation will be with Sanat Kumara and Juliano as the Team works on removing negative attachments to the Earth. A special corridor will be created for the purpose of collecting, distributing, and vacuuming negative spiritual forces connected to the Earth to be sent out of the Earth, up into the corridor, and dissipated.

The new Aust Biorelativity Committee will be in operation from February 2018. We will meet on February 3rd at 11am DST. Please talk to Jane or Carel if you are interested in being part of this important committee. We would prefer actual presenters, as they are working on the coalface, so to speak, but if you feel you can contribute, you will be welcome.

We have prepared a meditation that focuses on the **drought that is hitting most parts of the globe**. So, we will present that meditation regularly to ensure Mother Earth hears our call for assistance.

We feel, too, that our Immune systems should be made stronger, so we will also present regular meditations for our **Immune Systems**.

We have found that repeating meditations is a wonderful idea because with repetition our visualisations become stronger as we become familiar with the meditation.

We may have to change the Thursday Meditations from the Masters to another time slot. This will be discussed by the Biorelativity Committee.

EARTH BALANCE TEAMS

When the Earth Balance Team move onto a new meridian, there is no focus then, on the meridians that they have worked with, so the idea was created to ask members all over the planet to form small groups and take responsibility for a specific meridian. They are asked to meet each week for 15 mins to maintain the focus on that meridian. The response has been wonderful! Thank you!!

Perth members have taken responsibility to maintain the Pacific Ocean currents. They meditate on a Tuesday evening at 6pm Perth time. The team comprises Michael Maynard, Monika Jakli, Kathryn Whitehand and Sofia Souklis.

Sydney north members Yvonne Villien, Gwen Bowyer and Paula Kapp with support from friend Pat Scheveling will work with the Ring of Fire. They meet in person, on Wednesday each week at 10am

Gold Coast and Spanish members under the care of Jane Scarratt have taken responsibility for the Space Time Continuum Rift. They meet on Tuesday evenings at 8pm.

USA members under the care of Christofer Aven in California have taken responsibility for the North to South Pole Meridian. The team is made up of Jan Dugan from Alabama, Gary Chaunce from Ohio, Jeannette Carlisle from Texas. They meet Friday evenings at 4pm California time.

Keith Kreyling in Boston Massachusetts will lead a team looking after the North to South Pole meridian. The members of the team are Keith and Tabitha Kreyling, Gene Yoder and Bonnie Sue Rauch. They meet on Thursday evenings.

Sydney members Carel Fillmer, Belinda Simpson, Kerry Wilsher, Terence King and Ulli Hansen will take responsibility for the Pacific Ocean Currents.

Back row:- Andrea, Susan, Anne. Front row: Marie, Helen and Jane. Four members sent their apologies.

The members of the Gold Coast Planetary City of Light were delighted to **welcome Andrea Amorim from Salvador in Brazil** to our monthly Planetary City of Light meditation. Andrea gave us a Powerpoint presentation about the Costa Azul PCOL/PORL in Brazil. Juliano has given his blessing for us to become sister Cities of Light and sister Ocean Reserves of Light and we will incorporate that connection into our monthly meditations. When Andrea comes back to the Gold Coast in 2018, we will exchange crystals that we use in our meditations. Andrea and Jane are looking forward to organizing different ways for our two cities to interact.

UNIVERSAL LAWS

How many people say "I would like to know God's Laws, but I don't know them". So, in this newsletter for the next few months, we're going to give you the Universal Laws. To merely read the Laws isn't enough. You must use the Laws and prove them correct. Everything works by Divine Law as there would be no order in the Universe without these Laws. It's very important for us to practice these Laws because a life without law and order can be a life of trouble, chaos, trial and error, or hit and miss. When you work with law you know the outcome of every venture **because** it is law and therefore it can't fail.

20. The Law of Oneness

Since there is only the ONE, and besides the ONE there is none else, there can be no separation of the parts. This is law! If you take a whole, it must contain all its parts to be a whole. Then try to understand that in all the universe without end, it is always, and forever, just the ONE in Jesus Christ. The bible refers to this as one Body in Jesus Christ. And so it is. All are members in this one body, and so as the bible states, very clearly, "God is no respecter of persons." How can you say to your body (your whole body is a whole within a whole) that you love your eyes, but not your feet, you love your heart but not your liver? And so it is with God, the Almighty Creator of all things. His/Her love does encompass all, and all alike. This, then, is of the greatest importance if you would grow in Christ Consciousness. Identify yourself, always with every person. Do not love this one, or that one. Love none because you love all, for you are every person, or one. There can be no separation, ever. This is the way to one-ness with God, one-ness with all.
