## Radio Wave Theory and the Speed of Thought

*By David K. Miller*

I have been studying radio wave theory for many years and often compare radio propagation to thought waves. We are bio-magnetic beings and our thought waves, have similar characteristics to the electromagnetic properties of radio waves. Radio waves travel at the speed of light, which is the fastest possible speed an object can travel, 186,000 miles/second. This is an enormous speed. Juliano continually reminds us though that thought waves are instantaneous and are thus faster than the speed of light. Your thoughts can project your presence anywhere in the galaxy in an instant. Therefore, thought waves are able to travel at the fastest speed in the universe. As a bio-magnetic being one can also receive thought waves and electro-magnetic communication from the higher realms immediately. It helps to be in a higher state of consciousness so that one's receptivity to thought waves from other realms is heightened. One can even receive thoughts from other people on the Earth when one is in a state of receptivity. Thought waves, like radio waves, can travel around the earth covering all countries and all peoples. A psychic can receive thoughts from people on Earth as well as thoughts from spirits from other realms. Radio waves are influenced by the sunspot cycle, the ionosphere, the seasons, and the time of day. Some radio frequencies are more receivable at nighttime for example than during the day. Interestingly, many mystics and psychics report that their sensitivity to other realms is higher at nighttime, and others report greater sensitivity at sacred spiritual spots around the planet. In my beginning years as a channel, I would often travel to sacred energy spots in Sedona, Arizona, in order to enhance my receptivity to the Arcturians. Sacred sounds, such as words in ancient Hebrew or Sanskrit, can also help to raise one's sensitivity and receptivity to thought waves from the masters. In our evolution, we are just at the beginning of exploring the nature and abilities of our thought powers. Hopefully, we can use this ability to accelerate the evolution of humanity.

## STARSEEDS Counseling

Dear Gudrun,  
can you help me understand how to prepare for and use the "flash" of higher dimensional light that Juliano has downloaded to us in meditations. Also, what really is a "flash?" Thank you.

Dear Friend, good question.  
The Flash is an intense downloading of fifth-dimensional light. It is in preparation for the ascension. The intent is for your body to receive and integrate high-frequency energy.

You prepare for the downloading by increasing your frequency through many ways. You can read sacred and inspiring texts. You can go to sacred places. You can surround yourself with crystals and chimes and music that uplifts your soul! You also prepare by correct thinking. You are worthy of ascension. You are a Starseed here on a sacred mission. Emotionally you unburden yourself of any blockages that keep you stuck in lower energy. Let go of negative beliefs about yourself and let yourself heal from any traumas still causing you pain. Do not accept abuse on any level. Know you are divine beings and that you are loved unconditionally.

Blessings,  
Gudrun

**Greetings, this is Juliano, we are the Arcturians.** I welcome your inquisitive minds, especially at this time of dramatic change that is occurring throughout all aspects of your planet. There are many different perspectives and views on events, many different interpretations and it is hard, as seekers, to find the truth but nonetheless as they would say, the truth is out there and it only requires an inquisitive mind and persistence to find the ultimate answers to your questions.

### Question from Rhonda in Houston.

Juliano, why do you not hear about the flu anymore? What is really going on with this virus? I feel strongly that we are being misled! Thank you.

**A:** Well, are you asking Rhonda, for more trouble? (jokingly). Is not the virus enough trouble that you want to get the flu - that is a joke. But anyway, first of all, let us just look at one scientific observation and that is the reason why there is not more cases reported of the flu right now. Because the methodologies that are being practiced by hundreds if not millions of people around the planet which include washing of hands, keeping social distance, wearing a mask, being isolated and all the other rather painful methods, do work effectively with the flu as well. So, what is happening is that you are

not seeing as many cases of the flu because the methods that are being instituted to fight the Coronavirus in a secondary way or coincidental way have prevented more flu outbreaks.

Now the question she asks, what is going on with this virus - I am assuming she is asking about the Coronavirus and what is going on with the Coronavirus is that it is out of control and that despite any scientific explanation, the general consensus, from my perspective and our perspective, an Arcturian perspective, is that the scientists still do not understand this virus and that even though they are saying that the vaccination is going to "cure it", it is not going to cure it. In fact, my estimation is that the vaccination will be about 30% to 33% effective.

Now when I say 33% effective, I am not comparing it to the 90% effectiveness or 90% effective rate, that is the rate where you get the vaccination and 90% of the time you will not get it. 30% means if you take the overall planetary situation the whole vaccination effort will be about 30% to 33% effective in reducing or keeping in maintenance or holding the back the total outbreak.

Now, why do I say that? Because number 1, not everyone is going to take the vaccination and number 2, there is not the technological means to give everybody the vaccination, and number 3, it would take probably a year to a year and a half to give everyone the vaccination, and number 4, this virus, as I have said earlier, mutates, and the mutation would necessitate a second vaccination. Just like you get a vaccination for the flu this winter or this summer but then next year there is a new version and this is the mutation ability this virus has. It has the ability to mutate and it is a very sophisticated virus and I think that even the truth of this virus, of how sophisticated it is, is probably being kept a secret from the planet for fear of creating more fear among everyone.

I return to the theme that I have often said which is let us go to the root cause which is the sixth mass extinction and the interface of the destruction of the biosphere which causes the weakening of the immune system of humanity. This weakening of the immune system is caused by many different reasons such as radiation, which is related to the weakening of the Earth's aura and also related to the weakening of the human aura. Solving these problems is the true cure.

## MEETING OUR GLOBAL MEMBERS

### Booker Evans

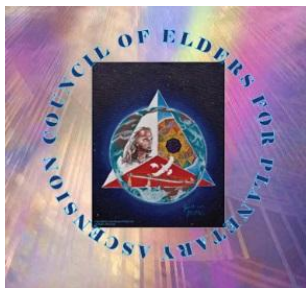

My name is Booker Theodore Evans. I am a student. I am currently studying applied mathematics and music theory. I was formerly employed as a psychiatrist, but I retired from full-time practice in 2014. Prior to medicine, I worked in nuclear accountability and safeguards, as a geodesist, and as an actuary. My current ambition is to play jazz on the alto saxophone. I live in West Hartford, Connecticut, when I am not traveling. My spiritual journey began at my earliest memory.

There were several spiritual traditions in my household. My maternal line is mixed Afro, Euro, and Native American. My paternal grandmother had Native American spiritual beliefs which were derived from her North Carolina lineage. I observed my grandmother while I walked with her through the woods. My maternal line is significant for several psychics and mediums and my maternal grandfather followed the Afro-Cuban religion. Mysticism and several languages prevailed in my home. In college, I began to study the philosophies of Yogi Ramacharaka and Paramahansa Yogananda. I began to meditate and later studied with Dhyani Yahoo of the Sunray Meditation fellowship. I have been meditating since 1972. I also have studied Tai Chi and Chi Gong.

In 2007 I met a woman while hiking in the Arizona desert. She gave me a book by Barbara Marciniak, who channeled "The Pleadians." I read the book in one sitting and then went to her website. After this, I began to follow several channelers, among them Darryl Anka, Wendy Kennedy, and Brad Johnson. Three years ago, I discovered David Miller and bought Volume II of the Sacred Teachings. I joined GOF two years ago and I am a team presenter with the Biorelativity meditation Team. The most profound lesson I learned during my journey came in January 1974. There was a three days period when I was unable to sleep and had many lucid dreams. I would wake up intermittently from disturbed sleep with the impression that I had encountered superior beings and that I had been given some of the scientific and metaphysical basis for the origin of life, the galaxy, and the universe. Hints of the future of the galaxy were given to me. Blessings, Booker.

# COUNCIL OF ELDERS REPORT

## The Medicine Wheel and the Star Family

*Juliano by David K. Miller*

We are happy to announce that this is the fourth part of a series of 10 articles from a 2011 channeling by Chief White Eagle and Juliano through David K. Miller. This information is relevant to our planetary healing projects, and we would like to bring this information to the attention of our members again, especially since we have a large number of new members who may have never seen this lecture. For the final installment, we will add updated information on the medicine wheel, given to us recently by Juliano.

### Part 4

Using the Earth's feedback loop system can be a way of controlling weather patterns in certain parts of the world. The Earth's feedback loop system, for example, can be used to affect volcanic eruptions. It can be used to create earthquakes. In fact, this high militaristic scientific project called HAARP (Editor's note: High Altitude Auroral Research Program), high-frequency auroral radio propagation research is working to crack the codes of the feedback loop system. Eventually, they are coming close to it because they now understand that there is a basic harmonic frequency on the Earth. It is a basic tone of vibration that the Earth is on. All planets, all stars have a radio frequency vibration. The people that are doing the HAARP experiments want to explore what will happen if, or if it is possible, to shift the Earth frequency. What will that do? That is what I call "playing with fire," because scientists don't understand all the reasons why a planet would be vibrating on a certain harmonic.

I want to also discuss a little bit more about planetary harmonic frequencies because you are all attuned to harmonic frequencies. The Harmonic Convergence and the harmonic energies of 1987 was a big doorway for many of you. Many of you were sensitive to the 11-11-11 energies because this was also a time of harmonic energies and communication with the Earth. Harmonic energies can be opportunities to communicate with the Earth's feedback loop system.

The 12-12-12 is also another example of planetary harmonic energy. Also, even 12-12-11, which is coming up in about nine days, is also a powerful time to communicate with the harmonic energies. Harmonic energies activations can become part of the Earth's feedback loop system, and the Medicine Wheels and the crop circles can be tools to interact with the harmonic energy field of the planet. They can be tools in which many people through group meditations can telepathically communicate in a harmonic way with the Earth and also help to restabilize the Earth's energy system.

The Earth's feedback loop system is being affected by the disharmony that is occurring on the planet. Disharmony and disharmonic energy create irregular vibrations that will affect the harmonic vibration of the planet and, therefore, affect the feedback loop system. Harmonic convergence and harmonic energies, such as what you experienced on 11-11-11, are ways of stabilizing the harmonic energy field of the planet. This is one of the most powerful tools in Biorelativity, the stabilization of harmonic light and the creating of harmonic light.

Now, harmonic light also has different cycles, so that you can be on resonant cycles and that can still create a harmony. This is also found in music where you can have some people sing a different octave above or below the main score. It still all harmonizes. I want you all to understand that harmonic energy and the creation of harmonic energy is one of the most powerful tools in the Biorelativity field. The use of the Medicine Wheel, the Medicine Circle, can accelerate harmonic energy and harmonic light. The mere creation of the Medicine Circle is establishing a harmonic energy field where you built it. That harmonic energy field can be utilized multi-dimensionally. That harmonic energy field can be used to send harmonic energy to the Earth feedback loop system. It can be used to connect with other Medicine Wheels around the planet. The crop circles are also harmonic tools that can be used for fine-tuning of the Earth's harmonic energy.

We need to understand that the Earth has a very complex harmonic pattern. It could be necessary to have various adjustments of the harmonic frequency that can only be expressed in complex geometric patterning. That complex geometric patterning can be expressed in the crop circle.

The Medicine Wheel also has the ability to do harmonic adjustments to the Earth just like the crop circles. But the Medicine Wheel is not built as complex as the crop circles. You have seen the crop circles, and you have seen many of the complex geometric patterns. Some of those patterns probably have never been seen before on the Earth and, therefore, may not be easily reproducible. The beauty

of the Medicine Wheel is this: The Medicine Wheel is a relatively simple geometric pattern. This pattern is set up so that it corresponds to the communication patterns of the humans. Because it corresponds to the communication patterns of the humans, this means that the Medicine Wheel increases its power when you step into it. The Medicine Wheel increases its healing powers and communication powers to the harmony of the feedback loop system by your being in the Medicine Wheel, by your placing crystals in the Medicine Wheel and by your making the Medicine Wheel a sacred site.

## Planetary Healing BIORELATIVITY Earth Balance Teams

The Biorelativity Team is presenting a minimum of 14 meditations per week. We are letting Earth know we are here and we are supporting her and she will respond more favorably *BECAUSE* she knows we are here.

**REMEMBER.....**A planet cannot ascend by herself. A planet must have higher thought-forms, higher beings, on it. Biorelativity is the ability to interact with the Spirit of the Earth with higher consciousness. Biorelativity can create unity consciousness and a unified energy field.

Noorelativity is the ability to send thoughts and energy into the Noosphere for the purposes of manifesting a higher healing light throughout that planet. There is a monthly calendar on the web pages. Contact Jane if you would like to be part of the Presentation Team or just need further information. ### Extract from Q and A November 2019

Juliano, could you let us know the effects of all the Biorelativity exercises we are presenting. Especially the meridian exercise to heal the rift in the space-time continuum? Thank you, CoRae.

**A.** Well, the Biorelativity exercises that you are doing are groundbreaking, they are setting up patterns of repair in the biosphere, in the meridian system and these are fantastic leakages, these are fantastic bridges that you are doing to close the certain holes that have been created through radiation, through nuclear bombs and through other really shocking and reckless military experiments and work that have been done unconsciously, without awareness, on this planet. So the first answer is that the Biorelativity has helped to create a bridge of repair around the meridians and that these repairs are still fragile but I want you to know that the repairs that you have been doing are revitalizing the life force energies in this planet because one of the greatest threats to the biosphere is the closing and the blocking of the life force energies around this planet and some of the blockages are coming from things such as the building of dams over power spots or the destruction of power spots, destructions of sacred energy or dumping contaminations in certain areas.

## Planetary Cities of Light Report

**Robert Maldonado**  
International PCOL Coordinator  
[rrmaldo@gmail.com](mailto:rrmaldo@gmail.com)

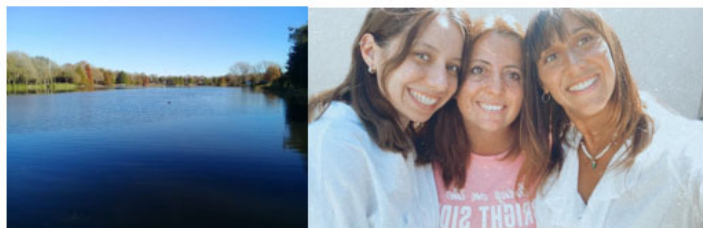

Happy New Year. We are off to a fabulous start this year having already activated two new PCOL's this month in Buenos Aires, Argentina on January 9 and in York, United Kingdom January 17. We anticipate the creation of more cities of light in Argentina, Chile, Peru, Uruguay, Colombia, Costa Rica, Cuba, Mexico, Australia, Brazil, and the United States. So, this is a very exciting time for our project and a great beginning to the new year.

The PCOL Advisory Committee goals for 2021 are to continue to grow and enhance the PCOL network in the year of planetary repair. This includes exploring ways we can follow-through on what has been activated to ensure they have maintained interest, enthusiasm, using tools due to our rapid growth, as well as new ways to bring forth more sharing in the network with our PCOL's.

We are going to kick off the year by inviting individual PCOL's to talk about their activities at the monthly global meeting. It's a great opportunity for all of us to become more connected and learn about each other and our network around the world. Your energy and participation will grow and strengthen our PCOL network, positively affect the noosphere, raise the vibrations of Gaia and show our support and encouragement to our members. We encourage all our members to attend these activations since your wonderful energy greatly supports these activations, strengthens the network and it is an opportunity to get to know each other.

Let's welcome our two newest PCOL's in the country of Argentina: Río Cuarto in Cordoba and Vicente Lopez in the capital city of Buenos Aires. This brings the total to 5 PCOL's in Argentina.

Río Cuarto is an Argentine city located in the south of the province of Córdoba. Villa Dalcár (the neighborhood chosen to perform the activation), is considered a habitat of biodiversity adjacent to a large body of water (the artificial lake created in 1943) and along the

river that crosses the city is home to more than 70 species of birds and animals. One of the main challenges for the PCOL will be preserving the ecosystem and conserving its environmental development.

Following the activation of Cordoba, the coordinator shared “We are so excited with the immense energy and inexplicable love from the activation of our city. It's an honor to be able to share with you how we're feeling the City. We wish to thank all of the group of Forty for all the love and joy that was shared. We will ensure that our love and the strength of the Arcturian energy is expanded in Argentina and the network of cities of light.”

The city of Vicente Lopez is located in the northern greater metropolitan area of Buenos Aires approximately 20 kilometers outside the city of Buenos Aires. It has a population of 35,000 people and was founded in 1912 with the construction of the Belgrano railway. The PCOL is located in the neighborhood of Munro in Vicente Lopez.

Following the activation, the coordinator shared: I can say that on Sunday (the day after activation) I felt very good. During my meditation, I connected faster and had a lot of emotion, more than usual. And the first thing I noticed was that the energy was different and I could see it in my quieter pets and in the plants. From now on, we have the maintaining of the energy as our primary goal, which I hope to be able to do with a lot of love!!

Be sure to come and meet your GOF brothers and sisters from Australia at our first PCOL Global Meeting of 2021 on January 24. We are a family and want to help each other in the process of planetary healing. As we join together over and over, we build our unity consciousness and strengthen ourselves and the network.

### Q & A

**Dear Juliano, as we grow PCOL's around the world I would like to know whether there is a number of PCOL's that will shift the consciousness of the earth to a new level and what effect this will have on the earth's ascension and its connection to the ascended fifth-dimensional earth?**

Actually, the number is a powerful number and we have felt that the approximate number would be 140. But let me clarify. The cities of light power depends on two factors: the numbers of the cities of light and the Arcan power of each city of light. So, you could have 140 active cities of light but if they are not strong and active and emitting a strong Arcan power then you can have 500 and that would not be enough. So, the number one criteria is developing the Arcan power of the city of light. Assuming you have a threshold of power then I would say that 140 would have a very powerful effect on the planet.

We are seeing the 100th monkey effect when we look at South America now. People are exploding and wanting to activate and work with many cities of light because they understand intuitively the way to heal the planet. Assuming we get this core number of cities of light when I say Arcan energy I am not saying they have to be Shangri-La or perfect, but that the energy is active, you can feel it. So, I am hoping that this Arcan enthusiasm can be generated not only in South America but all over the planet.

The other factor is the network. You have the core number of 140 and then you have the interactive powers because you are still dealing with the 3rd dimension and it is hard unless you have a network to raise the interactional forces of each city and the planet. The sum of the whole is greater than the individual parts and this applies to the cities of light. You are working with the sum—a power that is transcending each city of light. This is a unity that will catch on and enthusiastically activate other cities of light.

The idea of the City of Light project is that each city can use its own self-control and power to heal its areas instead of waiting for some kind of group, planetary or governmental healing. Incidentally, the City of Light project and its practices would be an interesting way to heal this planet of COVID-19. That is that you can develop a COVID-free zone or using the technique of shimmering the city of light.

In the above picture, Virginia, Possum Woman Dreaming, had performed the Welcome to Country and was performing an individual cleansing of each person with an owl feather and water from a sacred Aboriginal well. Everyone sat with our bare feet on the earth.

## MONTHLY ACTIVITIES OF THE GROUP OF FORTY IN SPAIN

### Group of Forty activities

The fourth Saturday of each month is the monthly GOF/PCOL meeting day for active groups in Spain. On that day, all the PCOL groups carry out a monthly Reactivation of their PCOL in the time window from 12 to 15:30 and, in the afternoon, both the GOF groups and the PCOL groups meet for the connection with the monthly online meditation that the Arcturian School organizes. Other GOF meetings are at the discretion of each group.

### Online monthly Advanced Biorelativity exercises

The Arcturian School organizes two monthly online meditations in the Zoom Webinar, one on the second Saturday and the other on the fourth Saturday, at 5:00 PM, in both cases with the aim of helping to repair the Earth as a living being. There are more than 50 assistants from Spain, France, Mexico, Brazil and South America attending the meditations.

### Online meditations at the Arcturian Temple

The Arcturian Virtual Temple is a virtual global meditation space reserved for the members of the Group of Forty, which is connected with our Temple in the Arcturian School and with the Temple of Tomar in Arcturus. It has been founded by the Arcturian School at the direction of Tomar to help accelerate the planetary Noosphere and human evolution. The Temple of Tomar on Earth has 12 Temple Guides and offers a daily meditation on the Wormhole Classroom Webinar in Spanish, French, English and Brazilian Portuguese.

### Online meditations for COVID 19 Protection

We carry out these meditations on the second, third and fourth Saturday of May at 12:00 noon: on the second Saturday we carry out the protection of the Planetary City of Light of Sant Pere de Ribes; the third Saturday we have an exercise of Shimmering to raise the Spiritual Light Quotient of the Garraf area where are the Sant Pere de Ribes PCOL and the Sunway PORL and the fourth Saturday the exercise of Two Earths (2020 and 2022) and the Homo Omega in the Auditorium of the starship Athena of the Arcturians.

### ***Kaballah and the Ascension***

Chapter 18

By David K. Miller

**Apart from our mission to work on ourselves and remove our blocks, how does our light work heal Earth?**

I know you realize that your mission is not only to work on yourselves and to remove blocks but that you are also here on a mission that has been called "light work" and that will help to heal Earth. Many of you have been working so beautifully to send this energy to Earth. Many disasters have already been prevented or temporarily postponed because of the type of work you have been doing and the vibrations that people like you have been able to send into Earth.

The potential for devastation on Earth is very high right now. There are so many areas that are ready to explode politically, economically and geologically, and that does not even include the energy that is coming in from outside your solar system, such as asteroids.

**If Earth is hurting and suffering in what way can we help her?**

Yes, Earth is hurting. Yes, Earth is suffering. At the same time, as you are able to clear yourselves of some of your "imperfections," you will be better vessels of light. You will be better focused on helping Earth by sending love and taking care of Earth in any way you can. It could be as simple as picking up a piece of paper you see on the ground when you are on a walk. While doing something like that say to Earth, "I do this because I love you." That little thought can be very powerful, especially in the minds of people like you who are becoming vessels and focuses of light. Part of what you can do is to focus that energy and give it back. I ask you now to send love to Mother Earth. She is holding up very well, carrying the many, many souls that are on the planet.

There are many who are destroying her in various ways, however. There are many fires going on now on the planet - fires you do not even know about. There are many pollutants in the oceans. The oceans are continuing to die at the same rapid pace as you hear about the forests.

The expanse of clean and open ocean is diminishing very rapidly. The extent of the problem of the ozone hole you have heard so much about is being covered. You can work by sending your love to that space. Any little thing you do will be helpful.

**What are the thoughts and message from Sananda to help clean Mother Earth?**

Decide not to harm the planet. When you are cleaning up Earth, send this thought to Earth. "I do this because I love Earth." It is a very powerful statement. Part of Sananda's message is: "Love thy neighbor as thy self." His expanded message is: "Love Earth as thy mother." You take care of your mothers. Most of you would do so without thinking about it, and your mothers appreciate it when you take care of them. Caring for your Earth Mother, then, is one of the greatest gifts you can give her.

## **ANNOUNCEMENTS**

[David's Latest Book, Connecting with the Arcturians 4](#), is available now as an e-book and a hard copy book through Light

## Technology Publishing.

You can also find it on Amazon at [this link](#). This fourth book contains the most up-to-date information on ascension that is available, including new spiritual techniques to aid the process.

David's earlier books: "[Connecting With the Arcturians](#)" and "[Connecting with the Arcturians 2](#)" and "[Connecting with the Arcturians 3](#)" by David K. Miller, offer a comprehensive presentation on the ideas and views of an extra-dimensional, extra-terrestrial civilization on the Earth situation from the planet Arcturus.

Subjects included in this fascinating presentation are: 1) the Arcturians' view of the ascension or "rapture;" 2) what is the Fifth Dimension and how we, as the human race, are evolving toward the higher dimension; 3) the impending Earth peril and dangers to the Earth biospheres; 4) Jesus' (or Sananda's) role in the ascension and why he has a new name in the higher realms; 5) The Arcturian Stargate, a soul transfer station referred to in the Edgar Cayce's writings. When we finish the Earth's incarnations, we can travel to the Stargate for our next "soul assignment."

This first book also describes a new concept in spirituality, the Arcturian Sacred Triangle. For the first time, the Arcturians offer a way of uniting Earth's spirituality so that a planetary healing can occur. Readers will learn how ascended Native Americans' mystical Earth spirituality and galactic extra dimensional spirituality can be united to enhance a healing for the entire planet.
