## THOUGHTS FROM JANE

An absolute requirement for graduating from earth life is loving earth life. The attitude of wanting to escape from life on earth and looking at it as a prison is faulty thinking, and it guarantees that you will have to remain here.

Earth and the material universe are, in truth, one of the many heavens of God. If you knew how many beings would give their eyeteeth, so to speak, from the inner plane to trade places with you, you would be amazed.

This earth school, especially at this extraordinary time in its history, is one of the most sought-after schools in the entire universe. It is a tough school, but having it on your spiritual resume will be a real boon to your cosmic evolution. Earth, in truth, is a planet of love and joy, and it is your job as a lightworker to set an example and be a lightbearer for the coming age.

**2021 Australian GOF Annual Conference**

**October 16th 2021**

***This will be an online conference.***

## MEETING OUR MEMBERS

Hi I'm Jen Hamilton. I've been a member of GOF since 2014. My first encounter with things Arthurian was in 2011 when a psychic reader told me I had Arcturian guides and suggested that I read about them. When my friend Carel invited me to a gathering with members of her Arcturian group a few years later, I didn't hesitate to say "yes".

Since joining GOF I was involved in monthly Sydney meetings, including the creation of the Sydney City of Light and the Planetary Ocean Reserve of Light for Sydney Harbour. I really enjoyed being with a group of like-minded, spiritually aware individuals. I've been on a spiritual path since late teens and before that I had a Catholic childhood filled with Mary, the saints and Angels. I've had an abiding interest in history and was drawn to study ancient civilisations at Uni, then delved into Studies in Religion, writing a doctorate on the ancient mysteries (definitely past life stuff) and teaching a few courses on the western mystery tradition. I did a bit more study in my sixties before qualifying as a counsellor. Now I have a little business which I call ReSourcing and work as a transpersonal counsellor and creative therapist, using sandplay. So the spiritual definitely gets invited into the room during counselling sessions. In 2018, I moved to Adelaide to be more involved in my daughter and grandchildren's lives. Adelaide is a lovely city to live in, easy to get around, and very picturesque with the hills and the Southern Ocean. It also lies on a bed of quartz crystal so energies are amplified. And there seems to be quite an alternative community here.

I missed Sydney at first and the folks back there but feel a sense of community and belongingness here now.

## JEN HAMILTON

As I do with being online for the meditations. Once I was settled here Jane asked me to host a meet-up. A lot of people have joined the meet-up so the meditations are getting out there. Hopefully we will get to have a City of Light in Adelaide. It feels an important task to get it going and it seems that a small group is starting to form. Awareness of 5D has certainly added another layer to my spiritual journey and I hope it will for others who come to the meet-up.

Many blessings to you all

## HELLO FROM OUR LAUTOKA FAMILY

Hello all, this is Pam Stark. I thought I would share my experience at the medicine wheel in Wyoming. We were lucky enough to get there the day after they had Ceremony. There were medicine people and natives from different tribes, also a lot of people from different places in the US. We found out that they opened the Vortex to the Pleiades, It was open for 4 days and we were able to spend the evening and next day there meditating and praying. I must say we both had the feeling we did not want to leave. There is great peace and the energy there. I go to South Dakota every year for the past 16 years I am a Sundancer. That is one of our sacred ceremonies. I can't share any pictures with you no cameras are allowed, but I can share with you a little about the ceremony. It is a 12 day ceremony and the first four days are purification sweat lodge. Then there is tree day; we go and cut a cottonwood tree down. It's a sacred tree that the medicine man finds and when you cut a branch there is a perfect five pointed star. The cottonwood is the only tree this is found on. It's very sacred. We take it back to the altar. It is put in the middle of the circle, we put it in the hole that is prepared. We put in tobacco, a buffalo heart and water then we put our prayer ties and flags on the tree. Now this is a full grown cottonwood tree. We don't let it touch the ground. It is quite a feat. We have ropes attached to the tree and the men pull it up and put it in place. There are 400 small sticks and pray ties that make up the circle around the tree. That evening we start our fast, no food or water for four days and we dance sun up to sun down every day for four days. The Sun dancer's stay separated from the people. The people stay in the outer circle to support all of us while we dance. We give of ourselves to sacrifice for the children and the healing of our mother the Earth. All we have to give is ourselves. At the top of the tree an Eagle feather is tied at the highest branch. **That is our antenna to the stars, Tunkasila.** In English it would be to God. Now each morning when we go out there are 7 rounds of dance. The first round we open with offering our Pipe- or we say, **Canupa.** I carry a pipe for the people.

We believe all the pipes are connected so you must only hold it and pray with it with good positive intentions, and then we fill the pipe and we sing. That is first round. **Then there is a 4 Direction round.** Each round is different; a bit like a medicine wheel dancing with the earth. The whole time you are connected to that tree, praying. It was 106 every day. It's a hard dance. You know in your heart the spirits are taking care of you. I must say it does build your character. It's amazing what we can do when we believe and there is no doubt. The last 4 days we spend eating and drinking, You always carry with you how sacred water is to us. It's not the food you want, it's the water. From there we go to sweat lodge every evening and we call our spirits back. We call our name out four times to bring our spirit back to our bodies. It's so important that we do this work of meditations. I am very happy. I said once before that I found Group of Forty because we have our hearts and minds and spirits to move forth with this work in helping the earth heal

**I would like to end this with the 7 Lakota virtues.** Virtues: in pre-reservation Lakota society there were no written laws, but there were social norms and codes of behavior that can be best described as virtues. There were many virtues, and it is not unusual for Lakota traditionalist to list four or seven as the most esteemed. Four because it is a sacred number and seven in honor of the seven Powers or seven grandfathers. Sky, Earth, west, north, east, south, and all that moves and is sacred (often referred to as the great spirit or creator.) The four virtues considered the most esteemed are our fortitude, courage, generosity and wisdom. And the seven most esteemed are usually prayer, respect, compassion, honesty, generosity, humility and wisdom. In truth, the list of virtues is long and each virtue is necessary for Lakota society to function in balance and remain strong. They served to guide our ancestors and that should be the reality for us modern Lakota-and anyone or any society that yearns for balance and strength- to follow. Our ancestors would be happy if we did. Thanks to each of you.

We are what we surround ourselves with. I love all of you. Mitakuya Oyasin. We are all related

## Q and A with Juliano through David K Miller

**Micki in Melbourne asks:**

**Hi Juliano, Reiki has its roots in Japanese origins & dates back to the early 1920's to the teachings of Mikao Usui. I read recently the Reiki energy came from the Arcturians!! Could you please tell us more about the beautiful Reiki energy from the Arcturian perspective?**

**A** We will look at the Reiki energy and we are very impressed with Reiki for a variety of reasons. The first is because it fits in with our healing modalities which are focused on energy and the fact that the humans are energy beings, you are electromagnetic energy beings and Reiki deals directly with the aura and the energy field and the body as an energy system and secondly, we like it because it deals with the concepts of universal life energy, sometimes called Chi and other names in Japanese, that fit in with the fact that there is a healing life force energy throughout the universe and that that life force energy is available to everyone. We cannot take credit for the development of this. In fact the original development of this occurred during the Lemurian times and the Lemurians were deeply connected with higher advanced healing modalities. We enjoy and encourage the Reiki but we cannot say that it was our system that was brought to the Earth. Now you might ask then, "Well who did bring the Reiki to the Earth from the Lemurians?" and you know there is an ancient Chinese tradition that goes back to the earlier, before Christ, centuries when the Chinese did have contacts with many other extra-terrestrial beings and some of them included the Pleiades and some of them included people from Antares and

it was during this time that a deeper connection was made to many of the healing thoughts and modalities, especially the concepts of Chi that were brought by the ancient Chinese.

**Jan in New Hampshire asks:**

**Juliano, do you have pets on your dimension? And do you, personally, have a pet?**

**A** We do not have pets like you do. In some languages pets are called house animals so if I was going to talk about pets on Arcturus I would say that we live in harmony with our animals and that there are animals around us but they do not have the same position as your pets do because your pets are doing a fantastic service of light to you. In many cases these animals are providing a balance to people that is allowing them to stay on the planet, they are serving the special needs, emotional needs and even physical needs of people so the pets do have a special karmic value on this planet.

So we do not have the same need. Our animals are more in harmony with our nature and with us. It is not to say that we do not love our animals but we are in a different position than you are.

## GREETINGS FROM POLBATHIC

Dear Starseeds This month I wanted to talk about our Galactic Sister City of Light - Alcyone Crystal Temple in the Pleiades. Alcyone is the brightest star of the Pleiadian cluster it is a portal to the Galactic Central Sun. The Pleadians themselves emit a strong feminine loving energy that makes you feel warm and supported when they are around you. Through our connection with the Pleadians in Alcyone Crystal Temple we receive Love and Light energies into our PCOL which we anchor via our crystal medicine wheels into the crystalline light grid energetic global web around our planet. An example of our Crystal medicine wheels can be seen in the attached photos. Our Pleidian guides presence is always welcome in our meditations (their energy merging with ours helping to raise the spiritual light quotient of our planet the blue jewel. The ones I have seen are very tall kind loving supportive patient nurturing and understanding - always encouraging us to align ourselves with our higher selves/souls and fifth dimensional light bodies through healing modalities such as regularly self healing and bio relativity meditations. Omega Light Blessings Together in Unity Consciousness. Stephen

## Bringing Herbs into your life

**Leek...** Spiritually, there is a parallel to garlic in that there is assistance in the birthing process; there is a greater awareness of the child to be. Leek, in appearing as a cluster, can bring energy from the Earth more strongly into action, almost as if a birth is taking place. The energy is symbolized in the signature of the planet. What occurs in spiritualizing the birthing process is an easing of the fears of expectant parents, a greater sense of calmness, and the sense that the life that has been before the birth will be continued into the birth. This is the parallel with garlic; that it is one continuum. These energies can be more easily expressed in the child, so it is wise at least once a year for any child to eat some of the actual plant. If cooked, it still transfers some of these spiritual properties. Those who emphasise variety in a child's food provide the child with a more conscious choice with leek. In early childhood years, there is some benefit in this plant being taken. We are not referring to large quantities but just the vibration of the substance. After the birth there is a tendency in some women to have what is termed 'postpartum depression' or difficulty after the birth relating to the loss of the connection, bonding, and deep sense of oneness with the child. Leek eases this by enabling the mother to better see the continuum and understand that a child's life was very strong on a consciousness level even before conception. The mother will better understand that the bond with the child will continue into the child's later years. The ability to bond with the child in the uterus is enhanced.

## BIORELATIVITY SNIPPETS

The Australia and New Zealand Biorelativity Committee meet bi-monthly to discuss our presentations and concerns. The next meeting will be in August 2021

**Jader Antunes da Souza and Anronio Bulhoes in Brazil** are presenting meditations in Portuguese on Telegram. **Andrea Amorim, in Brazil** is also assisting them in translating our meditations into Portuguese. We are very grateful to each of these wonderful starseeds and planetary healers for their commitment and service to the Earth and to GOF Brazil.

We have changed the preamble to our meditations. We will now connect with Sphere 6, Montserrat, and the guide Lord Sananda. This sphere represents balance, harmony and sacred Messianic light. We feel connecting with this could increase our focus and our arcan power.

We discussed the benefits of having an actual member in the area we were focusing on in our biorelativity meditations. We feel it could enhance the requests we are making to the Spirit of the Earth.

Members in Australia are coming together to form a meridian meditation presentation team. We will commence by presenting on Sunday evening. We're still working out the logistics. Earth and humans are one energy. As humans, when our meridians are blocked we become ill and when the meridians of the Earth are blocked, then Mother Earth becomes ill and she shows that illness with environmental disasters.

## QUESTION AND ANSWER FROM BOOK CLUB

**Chapter one. "How to Heal, Ascend and Help Planet Earth" by David K Miller Answer prepared and presented by Jane**

### **Q. What is Biorelativity**

In Biorelativity the principle is that you are projecting thoughts to change the Earth to a more positive vibration that is compatible with the needs of the humans on the planet. The ability of being able to relate to Earth as a spiritual being includes the concept of Biorelativity. Native peoples have a history of how to practice Biorelativity. The idea of the Sacred Triangle includes integrating all three: the native side, the White Brotherhood and Sisterhood side, and the galactic spirituality side. We are saying that these three sides must be united and then a new healing paradigm comes. This new paradigm is going to be used for both personal healing and planetary healing. The next new spiritual technology includes the concept of the planetary healer and planetary healing. In planetary healing, we are saying that people can work to heal Earth. Let me explain the word "healing" in terms of the planet. Healing Earth means helping to preserve the biosphere for humanity. This also assumes that Earth wants to hold and support humanity. This means that Earth is honored to have humans on her and that Earth wants to work with humankind to hold this special energy that is necessary. The planet can ascend. Yes, you can ascend and the planet can also ascend. We are also working on techniques and methods for planetary healing using the Sacred Triangle. I would like to give some instructions on becoming a planetary healer. Some of you came to Earth to be planetary healers. One of the most powerful traits of a 5D planet is that it can telepathically interact with its inhabitants. This interaction is based on Biorelativity. We use our telepathic powers to help create and shape an environment that is in harmony with their own needs and desires.

One of our problems is the needs of our inhabitants. Look at us...half the planet is involved in war or conflict. Impossible to accelerate 5D energy. They just want weapons...they don't care about destroying the environment... these are negative thoughts being delivered to Earth. 5D energy wants harmony, and transformation...also called ascension. Our work is to transform this planet ...that is what we are here for...why we chose to come here....to be part of this....and we can use our thought patterns mixed with the other technologies the Arcturians have given us to accelerate and bring harmony to Earth to transform Earth into 5D energy. The crystals, the Iskalia Mirror. Biorelativity describes how people can beneficially influence Earth. But Earth will move to a balance that is agreeable to her and humanity alike...so our needs are seen in relation to the needs of the biosphere. We have to understand that Earth will sometimes take time to rebalance an imbalance...If there is a catastrophe the general healing would be for us to send thoughts to Earth's energy field. Which extends far above the entire Earth...and then to the problem area. This is how the Iskalia Mirror at the NP is of use to us. The energy is distributed in a more balanced way and it is distributed all over the planet. Also we can pin point our request to the part that needs balancing. In biorelativity we are using telepathic energy to communicate with the Earth. We're using it to link with other people so that a uniform and universal vibrational energy field is created. Each person can telepathically participate in this. Biorelativity can also relate to remote healing which is a high energy telepathy. Telepathy can apply to ascension because in ascension and the technology of ascension you are using the skills of telepathic visualization. You go where your consciousness is. You follow your consciousness. Remember the most powerful Biorelativity is through using visual images

## LADDER OF ASCENSION TOMAREE HEAD

We, in Australia have a Ladder of Ascension at Tomaree Head in Northern New South Wales, near Newcastle. The Ladders of Ascension provide new access points for the ascension energies. One of the big tools, one of the big spiritual technologies for a planetary ascension, is the establishment of the heavenly Ladders of Ascension. There are several important points:- The first thing is that to be admitted to the energy field of the Ladder of Ascension, you must be filled with love, unity and oneness that can only be expressed through your foreknowledge of the fifth dimension. The second thing of great importance is that you do not have to be in physical location to go to the ladder. The third aspect is that as you meditate, as you visualize, as you transport yourself etherically to the heavenly Ladder of Ascension, you will experience a magnificent feeling of ecstasy and joy.

## NAMASTE ANIMAL SHELTER.

G'day all, hope everyone is well. I am glad to be back writing for the newsletter. I have been dealing with illness and trying to keep doing rescues and feeding the little kids in my care and couldn't focus on writing an article. This month the story is a sad story. This beautiful little koala was called Ki. His beautiful mother, after being hit by a car, had dragged herself several hundred meter's into a paddock to keep her baby safe. He was 3 months old and was tucked up tight in her pouch. I had to cut him out of the pouch. Baby koalas stay in mother's pouch for 5 or 6 months, full-time, before venturing out into the world . Even though he was young, I was quietly hopeful that Ki might beat the odds and survive. Unfortunately, a week later, I went to get him out of my basket pouch and he had passed over. It was very hard. I deal with a lot of death but also so much beautiful life, and take solace in the fact that when they leave us they go to a better place where they get the treatment that they, and all deserve. Koalas can live up to over 12 years, unhindered, in a natural environment but that drops to 2 to 3 years when living in populated areas. The females only have 5 or 6 baby's over a 12 year period, which is not a lot, and with constant deforestation, the koala is on the brink of extinction, despite what governments and bureaucrats, would have us think. Many people with many more year's of experience can attest to the fact that the koala population is declining alarmingly in this country. I pray the new world comes quickly. All creatures should be allowed and can live in peace and harmony -as we all should.. Namaste love light and blessings to you all. Trent
