

Awaiting the Intersection of the Dimensions

By David K. Miller

I think we are all waiting anxiously for the spiritual energy coming to us from the Intersection of the dimensions. I try to imagine in my mind, where the fifth dimension is, and how will we know exactly when the intersection is occurring? To make things easier for our imagination, Juliano has described the dimensions as being represented by our planet Earth. Then he suggested visualizing the fifth dimensional Earth above that image, and then visualize that these two are intersecting. I think this is a good way to visualize the event.

I see the downloading of the energy coming as being a spiritual force. Of course, spiritual energy is difficult to measure. We do not have a meter like an instrument which measures voltages and amperage on electrical lines. There is no such meter for measuring spiritual energy. At this point in our development, we do not have any devices that would measure the strength of a spiritual energy force. The only way to measure spiritual energy is to record the number of spiritual events occurring, such as spiritual meetings, prayers, or conferences. These meetings could be taking place in churches, temples, or at sacred sites around the planet.

I was asked, in the November Q&A session, what is the difference between this intersection of the dimensions and the ascension? Juliano answered that the intersection of the dimensions is only providing a five percent download of fifth dimensional energy, and it is a sustained interface over a three-month period. He actually referred to it as a “spiritual transfusion.” The ascension on the other hand, is a much higher interface that can be compared to a higher burst of spiritual energy over a very brief time period.

We are now at the end of the “Planetary Stage One of Development.” At the end of this stage, a civilization on a planet is dealing with the conflicts between technology vs. spirituality. We, as a species, have technologically developed the ability to have weapons of mass destruction and other means to destroy the planet and the biosphere. We need a strong, spiritual input which can come, hopefully, from the intersection of the dimension. This new, spiritual input will help humanity increase the spiritual focus in order to overcome the possible destruction of the biosphere of the beloved planet, the “Blue Jewel.”

Dear Gudrun,

I am anticipating the intersection of the third dimensional Earth with the fifth dimensional Earth for next year. I do need help overcoming my fear and sense of doom about events on this planet. I often wake up depressed when I think of all the extinctions, wars and the polarizations happening on this planet. Can you help me find a way to have a more positive attitude?

Lost

Dear Lost,

many Starseeds are dealing with their sensitivities and are struggling now with being on the Earth. I think all of you will have different ways of coping and of coming to balance. I can share with you what works for me.

The first approach is working with the inner child. The inner child holds our emotional body. A happy and healthy inner child is joyful, curious, playful and resilient.

In order to shield my inner child from the events on the planet, I do not watch the news, especially not late at night. That would be like reading her a very scary bed time story.

Of course I am aware of the many issues facing the planet and humanity but I tell her that I will take care of her and that I love her. I will make sure that she has all the protection I can provide for her.

In the middle of the night, if I can't sleep, I call on the angel of sleep to help me. I also reach out to my guides and to my higher self and ask for an infusion of love and joy into my heart!

If sleep evades me, I send blessings to my family, my friends, my enemies and all the people I have ever known, including the masters and the angels. This often shifts my frame of mind.

Every morning I ask my guides and my higher self to work with me and through me so I can be of service to all that I interact with and can help, as well as myself. I also practice gratitude.

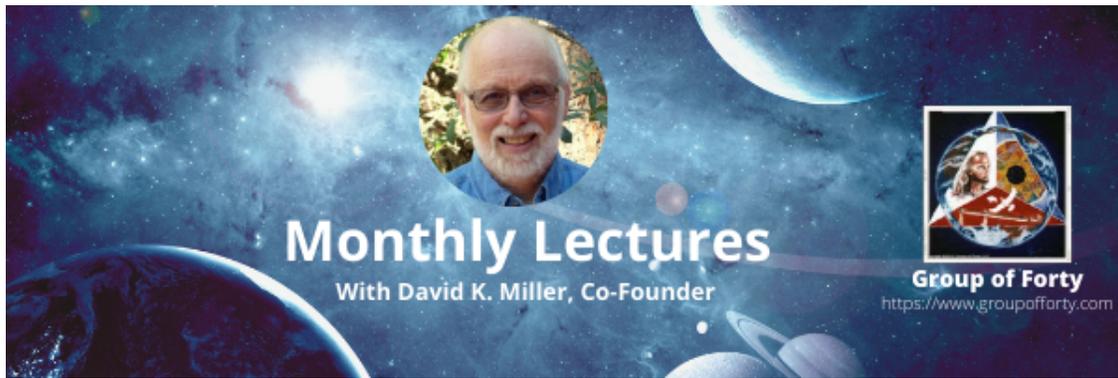

If all of that doesn't work, I distract myself by reading or playing with my dogs or I go for a walk in the woods.

Remember, every day is a different day. Your attitude often depends on your thoughts. If today is difficult, tomorrow may be better.

I love all of you!

MEET OUR GLOBAL MEMBERS

Bianca Weissman

Bianca Weissman hails from the exotic city of Rio de Janeiro and moved to the Boston area in the year of 2000 with her mother and 2 brothers looking for a better life. She has spent most of her career honoring her multilingual skills in Portuguese as a Medical Interpreter and Translator. While working as a medical interpreter, Bianca has faced several diseases which led her to study Herbalism and Flower Essences. Bianca has become an Herbalist and Flower Essence Practitioner as she believes diseases can be prevented and, most of time, cured with what God has given us in addition to good nutrition and mind reprogramming.

Bianca's passion for healing modalities has recently expanded as she was contacted by the Arcturians and guided to do the work she is now very passionate about. She understood she was being contacted by the Arcturians. Bianca reached out to David Miller and was suggested a channeled session with Juliano. She recently joined the Group of Forty. Juliano then informed Bianca that she would be working with several Arcturian Technologies. She began her studies and she is now a practitioner of a brand new work which is being brought to the United States - Multidimensional Arcturian Table, Stelar Ascension Table and Arcturian Technology. This work's purpose is towards personal ascension. You may contact her at quantumhealer0201@gmail.com.

This work has changed her life and it is changing other people's lives as well. Welcome to the Group of Forty Bianca!!

As we enter the November/December months here on Earth, the focus around us is on the holiday season. We have Thanksgiving in just a few days in North America and Christmas coming soon after. It is also the Jewish holiday of Chanukah in December, known as "The Festival of Lights."

As Starseeds, planetary healers and GOF members, we have a somewhat different focus, but one that is also related to the concept of 'light'. We have been and are preparing for a different kind of light that is coming very soon now. It feels to me that we are moving from the light of these joyful holidays to the higher fifth dimensional spiritual light that is to come. Ever since Juliano gave us the important date of January 15th 2023, our biorelativity meditations have felt different. The energy is more powerful, and we are all taking this next step in our mission very seriously. We have been given

more information and tools and are putting them to practice in our meditations in a beautiful way.

As I go through meditations from 10+ years ago, what stands out to me is that the message has always been the same and always leading us to the same destination - the path of light, higher consciousness, healing and of course the moment of ascension. The concept of raising the spiritual light quotient for example, is not a new concept for us. We have been working on this for years now as though to prepare ourselves, our countries, leaders, the entire planet, to be a great attractor force for the higher spiritual light and energy from the fifth dimension that will be intersecting with the third dimension very soon. We are participating as both givers and receivers of this great gift of light that is coming. This is a powerful time and a great privilege to be working together as brothers and sisters for the highest good of our beautiful Mother Earth, and of humanity.

Thank you all for your love and dedication, and for shining your light as brightly as you do. Wishing you and your loved ones a happy and harmonious holiday season.

Blessings to you all.

Foundational Healing of the Planet

I am encouraged with the progress that we are making in the project as it continues to grow. Remember, what we are doing is foundational for the healing of the planet during this time of crisis, especially in preparation for the upcoming intersection of the dimensions.

As Juliano says, “Equally important for the attraction of the intersection of the Fifth dimension with the Third Dimension is the continual increase in the number of Planetary Cities of Light which will serve as a powerful attractive force for the fifth dimensional intersection.”

PCOL activations scheduled for November

- Archangel Rafael, Brazil, Nov 20 at 10 am AZ.

Future PCOL/PORL activations

- Laguna Guatavita (PORL), Colombia
- Beluga Canarias del Mar, Colombia
- Taone Marama, Queensland, New Zealand
- Sao Paulo, Brazil
- San Antonio da Patruhla, Brazil

It is also very inspirational in today's climate to hear about what people are doing with their planetary city of light. In many there have been notable energy shifts, that can be tangibly seen. Some, who have a PCOL near a body of water have decided to extend their work to include a Planetary Ocean Reserve of Light into lagoons, lakes and rivers for the first time. This is a very important considering the dire state of our oceans and waterways. Juliano estimates that only ten to twelve years are left for the oceans to survive, given their current condition of contamination and pollution. Healings and positive changes in Earth's oceans must be made because the aquatic life is in danger of dying.

It is always a joy to introduce our newly activated PCOL's/PORL's in our network. In October we welcomed the Bucaramanaga, Ciudad Bonita de Luz (Beautiful City of Light) in Colombia and Mother Mary & Archangel Michael PCOL/PORL in Brazil to the network. Remember, that you are invited to participate in these activations. You can contribute your energy and glow in the energy field created. The next scheduled activation will be for the Archangel Rafael PCOL in Colombia, November 20 at at10 am AZ.

Bucaramanga PCOL. The PCOL of Bucaramanga is located in the city of Bucaramanga, the largest city of the department of Santander, Colombia. Bucaramanga has the fifth-largest economy by GDP in Colombia, has the lowest unemployment rate and has the ninth-largest population in the country, with 581,130 people. Bucaramanga has over 160 parks scattered throughout the city and has been given the nickname "La Ciudad de Los Parques" ("The City of Parks") and "La Ciudad Bonita de Colombia" ("Colombia's Beautiful City").

The Group decided to create a Planetary City of Light because they wanted to bring their neighborhood "Ciudad de la Real de Minas" to the Fifth Dimensión and to help reduce the crime associated with drugs, unemployment, and immigration. Bucaramanga is the 13th Planetary City of Light in Colombia.

Mother Mary and Archangel Michael PCOL/PORL--located in the neighborhood Lagoa dos Barros in the city of Santo Antonio de Patrula in southern Brazil, this PCOL borders Uruguay, Argentina and the State of Santa Catarina. The Lagoa dos Barros community

area is one of the oldest and most attractive natural regions in the state and attracts many campers. Unfortunately, this has brought about pollution, contamination from highway construction and garbage.

The goal of the group is to preserve the lagoon (the first Lagoon in the project) which is a reserve of freshwater used in food production, and during times of water scarcity and crisis environment and restore it to its natural state. At one time the lagoon was full of life with fish and sand dunes and was a beautiful environment.

In addition to the preservation of the lagoon, they are also very active in their community organizing activities with the community, and hope that their PCOL/PORL will contribute to the expansion of the collective consciousness of people who live in the community and in the municipality, allowing them to expand their perceptions, behaviors and the understanding of their emotions.

Our next Quarterly Global PCOL network meeting is scheduled for Sunday, December 11 @ 11 am AZ. The GOF is like a family because we share the mission of Planetary healing and we love sharing this in the PCOL network meeting.

Also, please join us at the PCOL Global meditation on the 3rd Saturday of the month. Our next one is on **Saturday November 19** at 9 am AZ and **December 17**.

Dear Juliano, there is a general understanding about the importance of increasing the Arcan power in the Planetary City of Light and Ocean Reserve of Light. Can you please clarify which Arcturian techniques and exercises you recommend, that are the most effective and practical for this, and how we can determine their effectiveness?

Greetings, this is Juliano, we are the Arcturians. At this point, in the development of Homo Sapiens, there is not a meter to measure spiritual energy. You have meters, for example, to measure voltages and amperage but there is no meter to measure spiritual energy. And I use this information because I want you to understand the difficulty in how we can measure the spiritual effectiveness of an intervention and how we can work together, to raise the spiritual vibration of an area. But fortunately, there are many techniques to do this and the measurements are based on what you might call anecdotal evidence, which would be defined as personal observations on people acting more spiritually, attuned with the Earth or even more people practicing spiritual exercises such as using the Medicine Wheel, for example. There are several really good techniques. And I will list them for raising the power of the spiritual energy of a PCOL and PORL. And there is also a new technique that I want to go over with you today that is specifically related to the intersection of the dimensions and how that coming intersection will affect the planetary cities of light.

The first idea that we have recommended is that each city of light is part of a network. There are planetary cities of light now in approximately 100 cities, and there are numerous ocean reserves of light. We've always emphasized the network factor. The network factor means that you energetically seek to connect with other cities of light that are in the network and overall, a worldwide meditation can be very effective in distributing spiritual energy and light. The idea is that in different times of the year or different times of an era, one city of light might have more power than another city of light. Therefore, the City of Light can send extra energy or thought power. Another important technique is the scheduling of spiritual events in the City of Light. This would include giving lectures or workshops or seminars. It could involve inviting high, spiritually minded people to come and give workshops.

I've always liked the concept of the Shambhala, which has been described in various books. In this paradigm the Shambhala does fit into the City of Light concept, basically, we have the idea that people to enter Shambhala or to enter a city of light, which is seeking to be like somebody in that area, they must be, that is the people who are wanting to enter, they must be at a certain vibration, a higher value spiritual vibration. Lower spiritual energies are people who have lower spiritual energy or more dense, are not even attracted and, hopefully, they would be rejected by the energy field of the planetary city of light. That means that if somebody wanted to come in and was of a lower vibration and wanted to commit a crime, or do something that was of a lower vibration, then they would enter the city of light, but then they would feel uncomfortable and turn around and leave. Now this is difficult to measure, how can you measure crime or lower vibrational activities that would have been committed, but because of the strong energy field of the planetary city of light, that energy field rejected or push them away. Now that is a very difficult measurement. In reality, the planetary city of light, when it reaches a certain spiritual vibration develops an energy field, that develops a magnetic energy field, just like there are energy fields from radio waves or energy field, from computers or energy fields from a cell phone towers. The planetary cities of light develop this special spiritual light energy field that is electromagnetic in nature but has properties that are still immeasurable in human terms. But sensitive people can feel that energy.

Now let's look for example at some highly psychic areas in North America such as Sedona, Arizona, which has an energy field and people feel the energy when they come in and they are already seeking and feeling the spiritual upliftment. And this is another key measurement, that is in the planetary city of light. People entering that city of light would experience a feeling of upliftment, of spiritual upliftment. They would come there like they come to Lourdes, France, for example, and want to participate in the healing energies of say, certain springs or other water systems. So, this is another indication.

Now, when we're at what I consider to be a spiritual crossroads for the planet, one of the most powerful exercises to raise this spiritual energy, and sometimes I refer to it as our Arcane spiritual energy, is what I call the intersection of the dimensions applied to the intersection of the planetary cities of light. And I ask that you visualize in your meditations, that there is a dome around the city of light and that represents the energy field, and that there is a fifth dimensional city of light that might even be considered an etheric duplicate of the third dimensional city of light. And this fifth dimensional city of light is in a dome, also a dome energy field. And the fifth dimensional city of light is going to intersect the third dimensional city of light in exactly the same way as I have described the intersection of the third and fifth dimension. The intersection of the fifth dimensional city of light with the third dimensional city of light is following the same approximate percentages, that is the bottom 5% of the fifth dimensional city of light is intersecting the top 5% of the third dimensional city of light, and there is a transfer of spiritual energy from that intersection. I feel that this is a good exercise to use now, especially in preparation for

the time period, when there will be a intersection of the dimensions.

I'd like to also add that we are suggesting that there are fifth dimensional cities of light based on your third dimensional cities of light in that you are working multi-dimensional, and that the planetary cities of light, in fact, are multi-dimensional, and that, through the exercises and through the raising of the vibrations the spiritual vibrations, you are activating a interaction with fifth dimensional energy from that system fifth-dimensional city of light.

These COVID years have introduced changes to our meditation routine. On the one hand, they have helped to progress and consolidate online work at all levels, promoting global groups and meditations with a larger audience of Spanish, French and Brazilian Portuguese-speaking attendees. This has given greater prominence and height to the monthly online meditations and to the webinars of the Arcturian School.

On the other hand, at the level of Spain, the monthly online meetings with the GOF of Spain have strengthened and consolidated the peninsular network and currently the bond between coordinators and members of the different groups is more intense and the interest in general online meditations has increased, since the result is more satisfactory and effective in large groups than in small groups.

The Arcturian School has contributed greatly to the renewal and progress of the groups in Spain and to the success of global meditations, providing resources and teachings and promoting the understanding and acceptance of the galactic.

IN-PERSON MONTHLY MEDITATIONS

The fourth Saturday of each month is the GOF/PCOL monthly meeting day for active groups in Spain. On that day, all the PCOL groups meet to carry out a monthly Reactivation of their PCOL in the window from 12 to 15:30 and, in the afternoon, both the GOF groups and the PCOL groups attend the monthly online Biorelativity meditation.

ONLINE MONTHLY MEDITATIONS IN ZOOM

1. Meditations of the Group of Forty of Spain every second Saturday of the month at 12:00 noon in Spain, in which we carry out exercises for the protection, healing and spiritual elevation of the country and all the Planetary Cities of Light of the peninsular network.

2. Advanced Biorelativity Meditations with international participation every fourth Saturday of the month at 5:00 p.m. in Spain. We have a list of subscribers who receive the agendas and we also post the announcements on our GOF Facebook group.
3. Meditations in the Virtual Temple with a monthly agenda that we send to our subscribers and post in our Virtual Temple Facebook group.

Cuicuilco

Cuicuilco is the oldest archaeological zone in the Valley of Mexico and is one of the largest civic-religious centers. Cuicuilco is from the Preclassic (800 BC to 250 AD), with dozens of pyramids, terraces, squares, streets, and temples, in addition to

sophisticated hydraulic systems, and a population that ranged between 20,000 and 40,000 inhabitants. It was contemporary of the Olmecs. The cuicuilcas had to leave Cuicuilco after the eruption of the Xitle Volcano expelled them from their city and from their main ceremonial center, where perhaps for the first time Mesoamerican man merged his spirit with the cosmos, when he first built enormous temples and pyramids in strategic positions, that is, oriented with cosmic logic, with eternal becoming, with cycles, with the immortal. Here he initiated the knowledge of the solar calendar, based on the rigorous observation of the movements of the Sun, and in Cuicuilco, the oldest vestige of the Old God of Fire also appeared.

This PCOL was activated 11 years ago. Juliano pointed out its importance with respect

to the nearby buildings. To the northeast is the Institute of Pediatrics (connected with our inner child) and next to it is the campus of the most important university in the country and refers to the knowledge that is associated with the evolution of humanity. To the northwest is a shopping center, as a representative of 3rd dimension commerce. To the southeast is the Olympic Village that housed the athletes of the 1968 Olympics as an example of the fitness of the human being. The energy of Cuicuilco is linked to that of these buildings. Its PCOL sister is Montserrat. Recently, Juliano joined them with all the activated PCOLs through a network. This will enhance the 5th dimensional energetic connection so that Gaia can continue to strengthen its vibration.

David's earlier books: "[Connecting With the Arcturians](#)" and "[Connecting with the Arcturians 2](#)" and "[Connecting with the Arcturians 3](#)" by David K. Miller, offer a comprehensive presentation on the ideas and views of an extra-dimensional, extra-terrestrial civilization on the Earth situation from the planet Arcturus.

Subjects included in this fascinating presentation are: 1) the Arcturians' view of the ascension or "rapture;" 2) what is the Fifth Dimension and how we, as the human race, are evolving toward the higher dimension; 3) the impending Earth peril and dangers to the Earth biospheres; 4) Jesus' (or Sananda's) role in the ascension and why he has a new name in the higher realms; 5) The Arcturian Stargate, a soul transfer station referred to in the Edgar Cayce's writings. When we finish the Earth's incarnations, we can travel to the Stargate for our next "soul assignment."

This first book also describes a new concept in spirituality, the Arcturian Sacred Triangle. For the first time, the Arcturians offer a way of uniting Earth's spirituality so that a planetary healing can occur.
